The Judge Of Ages Count To A Trillion:

The Judge of Ages John C. Wright, 2014-02-11 The year is 10 515 AD The Hyades Armada traveling at near lightspeed will reach Earth in just four centuries to assess humanity's value as slaves For the last 8 000 years two opposing factions have labored to meet the alien threat in very different ways One of them is Ximen del Azarchel immortal leader of the mutineers from the starship Hermetic and self appointed Master of the World who has allowed his followers to tamper continuously with the evolutionary destiny of Man creating one bizarre race after another in an apparent search for a species the Hyades will find worthy of conquest The other is Menelaus Montrose the posthuman Judge of Ages whose cryonic Tombs beneath the surface of Earth have preserved survivors from each epoch created by the Hermeticists Montrose intends to thwart the alien invaders any way he can and to remain alive long enough to be reunited with his bride Rania who is on a seventy millennia journey to confront the Hyades masters tens of thousands of light years away Now with the countdown to the Hyades arrival nearing its end del Azarchel and Montrose square off for what is to be their final showdown for the fate of Earth a battle of gunfire and cliometric calculus powered armor and posthuman intelligence Judge of Ages is the wildly inventive third volume in a series exploring future history and human evolution from John C Wright *Count to Infinity* John C. Military Occupations in the Age of Self-Determination James Gannon,2008-07-30 This book offers a perspective decidedly different from that of the Bush

Administration and its neoconservative supporters Since the United Nations embraced the right of national self determination in 1945 the historical odds have been unfavorable to great powers that impose military occupations on smaller nations This point is bolstered by the evidence from history and is particularly pertinent to the American occupation of Iraq where a robust insurgency has delayed projected successes by the administration and wartime planners Drawing on historical antecedents to the occupation of Iraq Gannon examines events such as the British Struggles in Palestine French enterprises in Algeria the Soviet debacle in Afghanistan and other instances in which occupying powers to demonstrate the struggles and failures of occupying powers in the face of determined insurgencies Since the United Nations adopted the principle of national self determination in 1945 great powers like the United States that occupy smaller nations like Iraq lose more often than not when confronted with credible insurgencies The evidence is taken from recent history the Zionist victory over Britain in Palestine and the defeats of France in Algeria America in Vietnam the Soviet Union in Afghanistan and Israel in Lebanon On the surface these outcomes seem perverse powerful modern armies brought down by rag tag rebels The explanation comes from the types of warfare fought Great powers are equipped to fight other great powers in great battles over large territory Rebels fight shadow wars neutralizing the fire power and mobility of the occupying army Insurgencies continue for years allowing political considerations to come into play including propaganda international pressure and the stream of dead and wounded returning from the war zone The home front turns against the war and new policymakers conclude that the nation s interests are best served by getting out History is not an exact science so the judgment here is expressed in probability not certainty witness the British defeat of insurgencies in Malaya and Kenya before giving up these colonies and the four decades old Israeli occupation and partial colonization of the West Bank
