The Trouble with Kings Stephen McKenzie, 2014-10-22 This book investigates the composition of the book of Kings and its implications for the Deuteronomistic History DH of which it is a part McKenzie analyses Kings on the basis of Noth's model of a single author editor behind the original DH He contends that the Deuteronomist Dtr wrote the series of oracles against the Northern royal houses without utilizing a prior running prophetic document that some scholars have posited behind Samuel and Kings He regards many other prophetic stories in Kings including most of the Elijah and Elisha legends as later additions to the DH in accord with Noth's recognition that the original DH was frequently supplemented by various writers McKenzie illustrates Dtr's compositional techniques in a treatment of the accounts of Hezekiah and Josiah in Kings He tentatively dates Dtr to Josiah's reign but believes that tensions among the many later additions to the work including the report from Josiah's death on suggest that they are not the result of systematic editing e.g. Dtr2 The book offers the most up to date survey of research on the DH and the most recent detailed analysis of the lengthy variant version of Jeroboam's reign in LXXB at 1 Kings 12:24a-z It offers a fresh perspective on the original shape of the DH based on recent scholarship and the author's own critical investigation
