The Global Prosecution of Core Crimes under International Law Christopher Soler, 2019-09-18 This book deals with the prosecution

of core crimes and constitutes the first comprehensive analysis of the horizontal and vertical systems of enforcement of international criminal law and of their inter relationship. It provides a global jurisprudential exposition in assessing the grounds for refusal of surrender to the International Criminal Court and of extradition to another State. It also offers insights into legal perspectives which improve the prevailing enforcement regimes of various models of criminal justice including hybrid criminal tribunals, special criminal courts, judicial panels and partnerships and other budding sui generis judicial and or prosecutorial institutions. The book espouses a human rights law oriented critique to the enforcement of domestic, regional and international criminal justice and is aimed at legal practitioners, prosecutors, defence lawyers, magistrates and judges, jurists, criminal justice experts, penologists, legal researchers, human rights activists and law students.

Christopher Soler lectures Maltese criminal law, international criminal law and public international law at the University of Malta. He obtained his Ph.D. from the University of Amsterdam in The Netherlands. Toward a Prosecutor for the European Union Volume 1

Katalin Ligeti, 2012-12-17. In an era in which the EU's influence in criminal law matters has expanded rapidly, attention has recently turned to the possible creation of a European Public Prosecutor's Office. This two volume work presents the results of a study carried out by a group of European criminal law experts in 2010-2012 with the financial support of the EU Commission whose aims were to examine in detail current public prosecution systems in the Member States and to scrutinise proposals for a new European office. Volume 1 begins with thorough descriptions of 20 different national legal systems of investigation and prosecution, addressing a range of evidential and procedural safeguards. These will serve as a point of reference for all future research on public prosecutors. Volume 1 also contains a series of cross-cutting studies of the key issues that will inform debates about the creation of a European Public Prosecutor's Office, including studies of vertical cooperation in administrative investigations, in subsidy and competition cases, the accession of the EU to the ECHR, judicial control in cooperation in criminal matters, mutual recognition and decentralised enforcement of European competition law. Volume 2, which will be published in 2013, presents a draft set of model rules for the procedure of the European Public Prosecutor's Office and continues with a set of comparative studies of the national legal systems that cover the gathering of evidence, seizure of assets, arrests, tracking and tracing, prosecution measures, procedural safeguards, the presumption of innocence and the right to silence, access to the file and victim reconciliation. Volume 2 concludes with the final report written by Professor Ligeti summarising the findings of the group and reporting on the prospects for the proposed reform.

Principles of the Digital Services Act Martin Husovec, 2024-08-14. Numerous questions were at the heart of parliamentary discussions over the provisions of the Digital Services Act (DSA), the EU's new regulatory framework for digital services in Europe. How should liberal democracies prevent illegal and harmful activities online and protect fundamental rights? How should digital service providers assess the impact of their technology on others? And how should technology companies moderate user-generated content? Principles of the Digital Services Act analyses the DSA's key provisions.

dissecting its mechanisms and components to understand the new law's likely impact on digital services in Europe and beyond. The book puts the new legal framework into its political, economic and social contexts by explaining its grounding within the frameworks of economic regulation and human rights. It examines the European legislature's approach to the DSA, offering a detailed historical account of the legislative and pre-legislative process. The book argues that the envisaged regulatory system has the potential to boost trust in the digital environment. However, its mechanisms must be able to rely on the robust network of civil society organisations, and the regulators should follow a set of principles. In this way, the DSA's goal can be achieved through means that are firmly aligned with respect for individual liberties, including the freedom of expression. Combining academic research with practical insights, *Principles of the Digital Services Act* offers a robust analysis into how to apply and further develop the most important tools of the DSA to rebuild trust in the digital environment.

Missing and Sexually Exploited Children in the Enlarged EU Gert Vermeulen, 2005. The book comprises country reports of the 10 new EU Member States. Each country report provides essential definitional information regarding the various forms of sexual exploitation of children, and types of missing children. It outlines the way data collection on sexual exploited and missing children by various governmental, police, judicial, other and nongovernmental actors is organised and delivers available data on the phenomena concerned. A final comparative report bridges the country report information into a first epidemiological state of the art for the 10 new Member States and for the entire enlarged EU, comparing the newly gathered information with information collected in the initial 15 Member States during a previous study, the report of which has been published in January 2004 as the first book in the Childscope series.

Rights, Religious Pluralism and the Recognition of Difference Dorota Anna Gozdecka, 2015-08-27. Human rights and their principles of interpretation are the leading legal paradigms of our time. Freedom of religion occupies a pivotal position in rights discourses, and the principles supporting its interpretation receive increasing attention from courts and legislative bodies. This book critically evaluates religious pluralism as an emerging legal principle arising from attempts to define the boundaries of freedom of religion. It examines religious pluralism as an underlying aspect of different human rights regimes and constitutional traditions. It is, however, the static and liberal shape religious pluralism has assumed that is taken up critically here. In order to address how difference is vulnerable to elimination rather than recognition, the book takes up a contemporary ethics of alterity. More generally, and through its reconstruction of a more difference-friendly vision of religious pluralism, it tackles the problem of the role of rights in the era of diverse narratives of emancipation.

Criminalising Hate Mark Austin Walters, 2022-10-20. This book presents both a new theoretical framework for the criminalisation of hate, referred to as law as social justice liberalism, and a comprehensive analysis of hate crime laws that have been enacted globally. The book begins by reflecting back on 30 years of theorisation on hate crime laws, arguing that there has been a failure to adequately capture the distinct harms of hate-based criminal conduct within legal frameworks. The book posits that liberal societies interested in advancing social equality ought

to expand conventional paradigms of harm used in criminal law by comprehending hate based conduct as a form of social injustice Drawing on the work of Iris Young the book sets out a comprehensive analysis of the harms of hate crime as a form of group based oppression and uses this to set out criteria for the inclusion of protected characteristics under legislation The second half of the book presents findings from a comparative study of hate crime laws enacted in 190 different legal jurisdictions This includes a new taxonomy of types models and legal tests used by legislatures to capture the myriad forms of hate based criminal conduct that occur globally Further evaluation of case law and empirical research on the application of these diverging legislative approaches is used to provide recommendations on how legislators ought to construct hate crime laws The book completes its analysis of law as social justice liberalism by synthesising law punishment and restorative justice as a means of ensuring that liberal systems of justice are more firmly anchored to the advancement of social justice
