London Serial Killers Jonathan Oates, 2022-05-05 An historical true crime accounting of London's notorious serial murderers and their victims spanning the Victorian era to the mid twentieth century Murders and murderers fascinate us and perhaps serial killers fascinate us most of all In the twentieth century the term came to be used to describe murders committed by the same person often with similar methods But as Jonathan Oates demonstrates in this selection of cases from London this category of crime has existed for centuries though it may have become more common in modern times Using police and pathologists reports Home Office and prison files trial transcripts and lurid accounts in contemporary newspapers he reconstructs these cases in order to explain how they took place who the killers were what motivated them and how for a while they got away with their crimes He does not neglect the victims and provides a revealing analysis of the killers their circumstances and their actions Among the nineteenth century cases are the infamous killings of Jack the Ripper and the less well known but terrifying crimes of the only female killer the Deptford Poisoner Twentieth century cases covered in forensic detail include the Black out Ripper of 1942 the Thames Nude Murders of the 1960s and the multiple killings of Joseph Smith John Christie and John George Haigh There is also one especially troubling unsolved case

the notorious Soho prostitute killings of the 1930s and 1940s which may be the work of one man Jonathan Oates's gripping accounts of this wide range of serial killings gives us a powerful insight into the nature of these crimes the characters of the killers and the police methods of the period
