Black Liberation Through the Marketplace Rachel S. Ferguson, Marcus M. Witcher, 2022-05-10 In this book we use the classical liberal lens to ask Americans on the political right to seriously reckon with America's deep racial pain much of which arises from violations of rights that conservatives say they deeply value such as property rights freedom of contract and the protection of the rule of law We ask those on the left to take a hard look at the failed paternalism and in some cases thoroughgoing racism of past progressive policy All Americans are asked to apply their concern for individual rights and constitutional order fairly to our historical record What readers will find are deep injustices against black Americans But they will also find black entrepreneurs overcoming amazing obstacles and a black community that has created flourishing institutions and culture Exhausted by extremism on both left and right a majority of Americans black and white love this country and want to do right by all of its citizens In *Black Liberation Through the Marketplace* readers will come away with a better understanding of black history and creative ideas for how to make this nation truly one with liberty and justice for all

Literary Partnerships and the Marketplace David Dowling, 2012-01-16 In *Literary Partnerships and the Marketplace* David Dowling examines an often overlooked aspect of the history of publishing relationships of both a business and a personal nature The book focuses on several intriguing duos of the nineteenth century and explores the economics of literary partnerships between author publisher student mentor husband wife and parent child These literary companions range from Emerson's promotion of Thoreau a relationship fraught with pitfalls and misjudgments to Davis Inc the seamless joining of the literary and legal minds of Rebecca Harding Davis and her husband L Clarke Davis Dowling also considers and analyzes the teams of Washington Irving and his publisher John Murray Herman Melville and his editor Evert Duyckinck E D E N Southworth and Robert Bonner the publisher who serialized her sentimental novels Fanny Fern both with her brother publisher Nathaniel Parker Willis and with Robert Bonner the latter a more successful pairing and the famous fraternal relationship between Ernest Hemingway and Gertrude Stein Throughout Dowling demonstrates the intrinsic irony of authors projecting their

labors of the mind as autonomous even as they relied heavily on their literary partners to aid them in navigating the business side of writing

Pluralism, Politics and the Marketplace Suzanne Hasselbach, Vincent Porter, 2002-09-11 Since the mid 1980s broadcasting in the Federal Republic of Germany has been extensively re regulated The traditional duopoly of the public broadcasters Ard and ZDF has been challenged by new private networks in both radio and television In two historic judgements handed down in 1986 and 1987 the Federal Constitutional Court set out terms for a new dual order of private and public broadcasting But how were the guidelines of the court interpreted in practice Pluralism Politics and the Marketplace traces the economic and political influences which shaped the emergence of a pluralistic broadcasting system in the federal republic and examines the conflicts between public and private broadcasting both in West Germany and in the European Community as a whole

Pilgrimage in the Marketplace Ian Reader, 2013-09-11 The study of pilgrimage often centres itself around miracles and spontaneous populist activities While some of these activities and stories may play an important role in the emergence of potential pilgrimage sites and in helping create wider interest in them this book demonstrates that the dynamics of the marketplace including marketing and promotional activities by priests and secular interest groups create the very consumerist markets through which pilgrimages become established and successful and through which the sacred as a category can be sustained By drawing on examples from several contexts including Japan India China Vietnam Europe and the Muslim world author Ian Reader evaluates how pilgrimages may be invented shaped and promoted by various interest groups In so doing he draws attention to the competitive nature of the pilgrimage market revealing that there are rivalries borrowed ideas and alliances with commercial and civil agencies to promote pilgrimages The importance of consumerism is demonstrated both in terms of consumer goods souvenirs and pilgrimage site selection rather than the usual depictions of consumerism as tawdry disjunctions on the sacred As such this book reorients studies of pilgrimage by highlighting not just the pilgrims who so often dominate the literature but also the various other interest groups and agencies without whom pilgrimage as a phenomenon would not exist

Voice of the Marketplace Joseph A. Pratt, William H. Becker, William M. McClenahan, 2002 The National Petroleum Council NPC emerged out of the close cooperation between the petroleum industry and the federal government during World War II An industry financed advisory committee designed to work closely with the Department of the Interior it enjoyed a remarkable independence from political or financial pressures Including representatives of all phases of the petroleum business the NPC could reach deep within the industry for information on vital issues In the last fifty plus years the Council has evolved into a voice of the marketplace analyzing conditions in the petroleum industry at the request of the government and publishing its findings in reports widely considered authoritative and useful Three uniquely qualified historians here chronicle the development and contributions of the NPC to both the energy industry and the American market While technological advances skyrocketing world demand the rise of OPEC and far reaching regulatory initiatives have fundamentally transformed the petroleum industry s structure and

operating environment the National Petroleum Council has remained a reliable source of authoritative information Joseph A Pratt William H Becker and William McClenahan Jr analyze the choices and strategies that have given the Council the adaptability and resilience to survive and remain important The authors look also at the actual reports generated by the Council more than two hundred studies to date and the impact they have had on both government and business They examine the NPC s ability to tap information and personnel from all sectors of the industry and to fund from industry resources studies that would have exceeded the pockets of the federal government They consider the way the Council has managed to encompass the varied viewpoints within a diverse highly competitive industry and particularly to bridge the sharp historical division between the majors and the independents Finally the authors analyze the one political concern that has remained constant for the industry antitrust This engagingly written book not only sheds light on the petroleum industry and its regulatory context but also addresses the larger questions of the U S government s relations with the industries it regulates

Buddha in the Marketplace Alex John Catanese,2020-01-01 Classical Tibetan Buddhist scriptures forbid the selling of Buddhist objects and yet there is today a thriving market for Buddhist statues paintings and texts In Buddha in the Marketplace Alex John Catanese investigates this practice which continues to be viewed as a form of wrong livelihood by modern Tibetan Buddhist scholars Drawing on textual and historical sources as well as ethnographic research conducted in the region of Amdo Tibet Catanese follows the trajectory of Buddhist objects from their status as noncommodities prior to the Cultural Revolution to their emergence as commodities on the open market in the modern period The book examines why Tibetans have more recently begun to sell such objects for their personal livelihoods when their religious tradition condemns such business activities in the strongest possible terms Addressing the various societal and religious ramifications of these commercial practices Catanese illustrates how such activity is leading to significant cultural and economic changes transforming the moral economy associated with Buddhist objects and contributing to a reinterpretation of Tibetan Buddhist identity

The Marketplace of Ideas Louis Menand,2010-12-06 Crisp and illuminating well worth reading Wall Street Journal The publication of The Marketplace of Ideas has precipitated a lively debate about the future of the American

university system what makes it so hard for colleges to decide which subjects are required Why are so many academics against the concept of interdisciplinary studies From his position at the heart of academe Harvard professor Louis Menand thinks he's found the answer Despite the vast social changes and technological advancements that have revolutionized the society at large general principles of scholarly organization curriculum and philosophy have remained remarkably static Sparking a long overdue debate about the future of American education The Marketplace of Ideas argues that twenty first century professors and students are essentially trying to function in a nineteenth century system and that the resulting conflict threatens to overshadow the basic pursuit of knowledge and truth

Science in the Marketplace Aileen Fyfe, Bernard Lightman, 2007-09-10 The nineteenth century was an age of transformation in science when scientists were rewarded for their startling new discoveries with increased social status and authority But it was also a time when ordinary people from across the social spectrum were given the opportunity to participate in science for education entertainment or both In Victorian Britain science could be encountered in myriad forms and in countless locations in panoramic shows exhibitions and galleries in city museums and country houses in popular lectures and even in domestic conversations that revolved around the latest books and periodicals

Science in the Marketplace reveals this other side of Victorian scientific life by placing the sciences in the wider cultural marketplace ultimately showing that the creation of new sites and audiences was just as crucial to the growing public interest in science as were the scientists themselves By focusing attention on the scientific audience as opposed to the scientific community or self styled popularizers Science in the Marketplace ably links larger societal changes in literacy in industrial technologies and in leisure to the evolution of popular science Literature in the Marketplace John O.

Jordan,Robert L. Saler,2018-02-01 Robert C Saler argues for a fresh ecclesiology of the church as a diffusively spatialized event Within this framework Saler provides an ecclesiology that retains normativity while defining authorship and the constructive task of theology Establishing this claim through historical encounters between Thomas More and William Tyndale and John Henry Newman and Friedrich Schleiermacher Between Magisterium and Marketplace provides a theological genealogy of modern ecclesiology offering a humble yet hopeful view of the theological task in light of contemporary ecclesial opportunities **Science and the Marketplace in Early Modern Italy** Brendan

Maurice Dooley,2001-01-01 In this book Brendan Dooley examines Italian scientific communications in early modern history He demonstrates that Italian science between the age of Galileo and the age of Galvani and Volta underwent two revolutions While the methodological innovations of the time have received copious attention Dooley is concerned with the revolution in published communications which has hardly been studied at all What his innovative research shows in sum is that the accomplishments of Galvani and Volta were not based upon a cultural void but rather a century and a half of fervid activity aiming to consolidate the accomplishments of Galileo reinforce scientific institutions establish observation and experiment as the dominant methodology and improve science s public relations This process challenged traditional institutional hierarchies of specialized knowledge and had far reaching interdisciplinary implications for the development of universities the

profession of university science researcher the academies and even state government

American Indians in the Marketplace Brian C. Hosmer, 1999 Although it is usually assumed that Native Americans have lost their cultural identity through modernization some peoples have proved otherwise Brian Hosmer explores what happened when cultural identity and economic opportunity converged among two Native American communities that used community based industries to both generate income and sustain their cultures Comparing a lumber business run by the Menominees of Wisconsin and a salmon cannery established by British Columbian and Alaskan Tsimshian communities known as Metlakatla Hosmer reveals how each tribe responded to market and political forces over fifty years Hosmer s innovative ethnohistory recounts how these Indians used the marketplace to maintain their distinctiveness to a far greater extent than those who became wage earners in the white man s world Hosmer shows that by selectively incorporating elements of American capitalism into their cultural lives the Menominees and Metlakatlans came to view modernization less as a threat to their tribal life than as a means for maintaining their independence These tribes embraced the same market accused of hastening the demise of native societies and became comparatively successful in American terms even as they both honored fundamental values and forged new cultural identities Over time these peoples came to understand how the market worked recognized that the broader economy operated according to market principles and learned how to adjust to it Hosmer reveals how their strategies of purposeful modernization brought relative economic independence and sometimes the respect and cooperation of local and federal governments how it helped chart a middle course between unchecked individuality and a communal ethos that might stifle economic development and how economic development and cultural values ultimately affected one another American Indians in the Marketplace is a story of adaptation that acknowledges the hardship and suffering common to most Indian white contact while emphasizing the benefits of selective modernization accompanied by a constant re invention of tradition It questions the victim thesis of Native American history and shows that native peoples can meet the challenges of surviving in the larger world
