Waldron,2012-06-05 While Richard Nixon s culpability for Watergate has long been established most recently by PBS in 2003 what s truly remarkable that after almost forty years conventional accounts of the scandal still don t address Nixon s motive Why was President Nixon willing to risk his reelection with so many repeated burglaries at the Watergate and other Washington offices in just a few weeks What motivated Nixon to jeopardize his presidency by ordering the wide range of criminal operations that resulted in Watergate What was Nixon so desperate to get at the Watergate and how does it explain the deeper context surrounding his crimes For the first time the groundbreaking investigative research in *Watergate The Hidden History* provides documented answers to all of those questions It adds crucial missing pieces to the Watergate story information that President Nixon wanted but couldn t get and that wasn t available to the Senate Watergate Committee or to Woodward and Bernstein This new information not only reveals remarkable insights into Nixon s motivation for Watergate but also answers the two most important remaining questions What were the Watergate burglars after And why was Nixon willing to risk his Presidency to get it Watergate *The Hidden History* reexamines the historical record including new material

Out-Innovate Alexandre "Alex" Lazarow, 2020-04-07 The new playbook for innovation and startup success is emerging from beyond Silicon Valley at the frontier Startups have changed the world In the United States many startups such as Tesla Apple and Amazon have become household names The economic value of startups has doubled since 1992 and is projected to double again in the next fifteen years For decades the hot center of this phenomenon has been Silicon Valley This is changing fast Thanks to technology startups are now taking root everywhere from Delhi to Detroit to Nairobi to Sao Paulo Yet despite this globalization of startup activity our knowledge of how to build successful startups is still drawn primarily from Silicon Valley As venture capitalist Alexandre Lazarow shows in this insightful and instructive book this Silicon Valley gospel is due for a refresh and it comes from what he calls the frontier the growing constellation of startup ecosystems outside of the Valley and other major economic centers that now stretches across the globe The frontier is a truly different world where startups often must cope with political or economic instability and lack of infrastructure and where there might be little or no access to angel investors venture capitalists or experienced employee pools Under such conditions entrepreneurs must be creators who build industries rather than disruptors who change them because there are few existing businesses to disrupt The companies they create must be global from birth because local markets are too small They focus on resiliency and sustainability rather than unicorn style growth at any cost With rich and wide ranging stories of frontier innovators from around the world *Out Innovate* is the new playbook for innovation wherever it has the potential to happen

Asian Americans and the Spirit of Racial Capitalism Jonathan Tran, 2022 Any serious consideration of Asian American life forces us to reframe the way we talk about racism and antiracism There are two contemporary approaches to antiracist theory and practice The first emphasizes racial identity to the exclusion of political economy making racialized life in America illegible This approach s prevalence in the academy and beyond now rises to the level of established doctrine The second approach views racial identity as the function of a particular political economy what is called racial capitalism and therefore analytically subordinates racial identity to political economy Jonathan Tran develops arguments in favor of this second approach He does so by means of an extended analysis of two case studies a Chinese migrant settlement in the Mississippi Delta 1868 1969 and the Redeemer Community Church in the Bayview Hunters Point section of San Francisco 1969 present While his analysis is focused on particular groups and persons he uses it to examine more broadly racial capitalism s processes and commitments at the sites of their structural and systemic unfolding In pursuing a research agenda that pushes beyond the narrow confines of racial identity Tran reaches back to trusted modes of analysis that have been obscured by the

prevailing antiracist orthodoxy and proposes reframing antiracism in terms of a theologically salient account of political economy

Born on Third Base Chuck Collins, 2016-09-23 A call to action for America's wealthy and a warning shot across the bows of their yachts if they fail to act Born on Third Base offers a clear and compelling case for why the privileged and powerful must act to reverse widening inequality of income wealth and political power in America Robert B Reich former US Secretary of Labor author of Saving Capitalism An essential piece of reading for anyone concerned by the increasing wealth inequality made worse by the global pandemic and political partisanship The growing wealth inequality continues to dominate headlines The divide between the haves and have nots in America is increasingly political and tensions are rising On one side the wealthy wield power and advantage keeping the system operating in their favor all while retreating into enclaves that separate them further and further from the poor and working class On the other side those who find it increasingly difficult to keep up or get ahead are desperate and frustrated waging a rhetorical war against the rich and letting anger and resentment keep us from seeing new potential solutions But can we suspend both class wars long enough to consider a new way forward Is it really good for anyone that most of society's wealth is pooling at the very top of the wealth ladder Does anyone including the one percent really want to live in a society plagued by economic apartheid It is time to think differently says longtime inequality expert and activist Chuck Collins Born into the one percent Collins gave away his inheritance at 26 and spent the

next three decades mobilizing against inequality He uses his perspective from both sides of the divide to deliver a new narrative Collins calls for a ceasefire and invites the wealthy to come back home investing themselves and their wealth in struggling communities And he asks the non wealthy to build alliances with the one percent and others at the top of the wealth ladder Stories told along the way explore the roots of advantage show how taxpayers subsidize the wealthy and reveal how charity used incorrectly can actually reinforce extreme inequality Readers meet pioneers who are crossing the divide to work together in new ways including residents in the author's own Boston area neighborhood who have launched some of the most interesting community transition efforts in the nation In the end Collins's national and local solutions not only challenge inequality but also respond to climate change and offer an unexpected fresh take on one of our most intransigent problems

School Journal, 1906 **House of Trump, House of Putin** Craig Unger, 2018-08-14 THE NEW YORK TIMES

BESTSELLER The story Unger weaves with those earlier accounts and his original reporting is fresh illuminating and more alarming than the intelligence channel described in the Steele dossier The Washington Post House of Trump House of Putin offers the first comprehensive investigation into the decades long relationship among Donald Trump Vladimir Putin and the Russian Mafia that ultimately helped win Trump the White House It is a chilling story that begins in the 1970s when Trump made his first splash in the booming money drenched world of New York real estate and ends with Trump's inauguration as president of the United States That moment was the culmination of Vladimir Putin's long mission to undermine Western democracy a mission that he and his hand selected group of oligarchs and Mafia kingpins had ensnared Trump in starting more than twenty years ago with the massive bailout of a string of sensational Trump hotel and casino failures in Atlantic City This book confirms the most incredible American paranoias about Russian malevolence To most it will be a hair raising revelation that the Cold War did not end in 1991 that it merely evolved with Trump's apartments offering the perfect vehicle for billions of dollars to leave the collapsing Soviet Union In House of Trump House of Putin Craig Unger methodically traces the deep rooted alliance between the highest echelons of American political operatives and the biggest players in the frightening underworld of the Russian Mafia He traces Donald Trump's sordid ascent from foundering real estate tycoon to leader of the free world He traces Russia's phoenix like rise from the ashes of the post Cold War Soviet Union as well as its ceaseless covert efforts to retaliate against the West and reclaim its status as a global superpower Without Trump Russia would have lacked a key component in its attempts to return to imperial greatness Without Russia Trump would not be president This essential book is crucial to understanding the real powers at play in the shadows of today's world The appearance of key figures in this book Paul Manafort Michael Cohen and Felix Sater to name a few ring with haunting significance in the wake of Robert Mueller's report and as others continue to close in on the truth **Abolishing State**

Violence Ray Acheson, 2022-07-26 ABOLISHING STATE VIOLENCE is an urgent and accessible analysis of the key structures of state violence in our world today and a clarion call to action for their abolition Connecting movements for social justice with ideas for how activists can support and build on this analysis and strategy this book shows that there are many mutually supportive abolition movements each enhanced by a shared understanding of the relationship between structures of violence and a shared framework for challenging them on the basis of their roots in patriarchy racism militarism settler colonialism and capitalism This book argues that abolition is transformative It is about defunding demilitarizing disbanding and divesting from current structures of violence but also about imagining new ways to organize and care for each other and our planet and about building new systems and cultures to sustain ourselves in a more equitable free and peaceful way It shows that change is possible
