Niemeier-Dirven, René Dirven, 1997-01-01 Since the celebration of the 100th anniversary of Darwin's *The Language of the Emotions in Man and Animals* 1872 emotionology has become a respectable and even thriving research domain again The domain of human emotions is most important for mankind emotions being right in the center of our daily lives and interests A key role in the interdisciplinary scientific debate about emotions has now been accorded to the study of the language of emotions The present volume offers a new approach to the study of the language of emotions insofar as it presents theories from very different perspectives It encompasses studies by scholars from diverse disciplines such as linguistics sociology and psychology The topics of the contributions also cover a range of special fields of interest in four major sections In a first section a discussion of theoretical issues in the analysis of emotions is presented The conceptualization of emotions in specific cultures is analyzed in section 2 Section 3 takes a different inroad into the language of emotions by looking at developmental approaches giving evidence of the fact that the acquisition of the language of emotions is a social achievement that simultaneously determines our experience of these emotions Section 4 is devoted to emotional language in action that is the contributions focus upon different types of texts and analyze how emotions are referred to and expressed in discourse

Summary of Karla McLaren's The Language of Emotions Everest Media, 2022-04-22T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 Emotions are a source of great resourcefulness If you can learn to focus and work with the information inside each of your emotion states you can become intimately connected to the source of your intelligence and heal your most profound wounds 2 Empathy is a powerful tool that can help us understand others but it can also be a double edged sword While empathis are

very sensitive and intuitive they can also get right to the center of any issue but in a culture that can't figure out what emotions are empathists are difficult to understand 3 I missed the important early stage of turning off my preverbal empathic skills in order to develop the verbal skills of emotional subterfuge As a result I could not listen to the dangerous ideas surrounding emotions and accept them I had to find my own way 4 Empathic skills allow us to see the world as alive with knowledge and meaning They help us listen to the meaning underneath words understand living things and nature and connect with the world around us

The Language of Emotions Maïa Ponsonnet, 2014-12-15 The Language of Emotions The case of Dalabon Australia is the first extensive study of the linguistic encoding of emotions in an Australian language and further in an endangered non European language Based on first hand data collected using innovative methods the monograph describes and analyzes how Dalabon speakers express emotions using interjections prosody evaluative morphology and the words they use to describe and discuss emotions Like many languages Dalabon makes broad use of body part words in descriptions of emotions The volume analyzes the figurative functions of these body part words as well as their non figurative functions Correlations between linguistic features and cultural patterns are systematically questioned Beyond Australianists and linguists working on emotions the book will be of interest to anthropological linguists cognitive linguists or linguists working on discourse and communication for instance It is accessible also to non linguists with an interest in language in particular anthropologists and psychologists *Language and Emotion.
