Charlotte Raban 1870 1954 Arthur Evelyn St John Waugh 1903 1966 popularly known by his pen name Evelyn Waugh wrote thirteen major novels apart from short stories travelogues essays news stories and non fiction In the maze of his prolific writings the quintessential Waugh often escaped the critical scrutiny of critics and reviewers who often charged him with being a bitter critic of modern Britain without presenting an alternative moral vision or else that his novels play up an untenable nostalgia for the aristocratic values of the feudal past and a pre occupation with thrusting his religion on others This book attempts to tear through the foggy veil of such critiques to revisit and redeem the real Waugh as represented in his creative works The study argues that the claim of Evelyn Waugh to be recognised as a major twentieth century novelist in English literature rests on his creative use of comedy to convey his unique vision of life The book highlights the centrality of the ubiquitous metaphor of the ever revolving wheel of life to an understanding of his comic vision and art The metaphor helps to define not just the division of this world into static dynamic and religious characters but also the weltanschauung that drives them to lead their lives in a particular way Based on this Waugh s novels are amenable to classification into lesser and greater comedies The book argues that while the lesser comedies play up the absurdity of belief in the Enlightenment philosophy of progress the greater comedies present the grandeur of life in the spiritual resurrection of the central characters

These values have been subverted she feels by some of the ablest of modern academics and by prevalent tendencies in criticism and teaching today. She discusses the new schools of criticism which exalt the sometimes unintelligible theorist above the creator of the work of art, the imaginative interpreter of life, or which replace the authority of the author with that of the reader. She regrets the tendency of teachers to emphasize contemporary literature to the neglect of the great writings of the past and to teach past literature only if it can somehow be made relevant. She reproves theater directors who distort Shakespeare's plays and who convert serious drama into happenings. And she finds that biographers of writers are so preoccupied with the inner lives of their subjects that the writings become psychological documents rather than works of the imagination. In a closing chapter, partly autobiographical, she affirms the values she has found in a life devoted to the study of literature. Even the most polemical sections of the book are courteous and good humored. Her own lucidity, range of reference and passionate concern for literature are in themselves powerful affirmations of her argument.
