Illidge. [With] A pastoral, to the memory of sir Thomas Delves** Richard Illidge,1836 Round the Red Lamp: Being Facts and Fancies of Medical Life Arthur Conan Doyle,2022-06-02 In Round the Red Lamp Being Facts and Fancies of Medical Life Sir Arthur Conan Doyle pivots from his

renowned detective narratives to explore the more personal and humane aspects of the medical profession. Comprising a compelling mix of fiction steeped in medical realism and a touch of detective intrigue, the stories such as *Behind the Times* and *The Doctors of Hoyland* offer readers a visceral insight into the challenges and ethical quandaries faced by Victorian era medical practitioners. The narrative style oscillates between poignant character studies and tantalizing mystery, all rendered in Doyle's signature lucid prose, thus presenting a fascinating tapestry of 19th century medical life within its broader social and literary context. Sir Arthur Conan Doyle himself, a physician before his literary fame, eclipsed his medical career, drawing from his firsthand experiences in medicine to lend an unmistakable authenticity to each tale. His explorations often underscore the sacrifices and moral dilemmas that underpin the vocation, perhaps reflecting his own internal struggles between the allure of storytelling and his commitment to healing. With a unique blend of empathy and suspense, Doyle's foray into medical narratives offers a closer look at the human condition through the lens of a doctor's life. Recommended for both aficionados of Conan Doyle's more famous *Sherlock Holmes* series and readers with an interest in historical fiction, this anthology promises to transport the audience to the heart of Victorian medicine. The stories within *Round the Red Lamp* are as enlightening as they are entertaining, offering a nuanced portrayal of the era's medical practices and the timeless resonance of its ethical considerations. This collection stands as a testament to Conan Doyle's versatility and profound understanding of human nature, ensuring that it holds a distinct and worthy place in the annals of classic literature.

American Silent Horror, Science Fiction and Fantasy Feature Films, 1913-1929 John T. Soister, Henry Nicolella, Steve Joyce, 2014-01-10 During the Silent Era, when most films dealt with dramatic or comedic takes on the boy-meets-girl, boy-loses-girl theme, other motion pictures dared to tackle such topics as rejuvenation, revivification, mesmerism, the supernatural, and the grotesque. *A Daughter of the Gods* (1916), *The Phantom of the Opera* (1925), *The Magician* (1926), and *Seven Footprints to Satan* (1929) were among the unusual and startling films containing story elements that went far beyond the realm of the highly unlikely. Using surviving documentation and their combined expertise, the authors catalog and discuss these departures from the norm in this encyclopedic guide to American horror, science fiction, and fantasy in the years from 1913 through 1929.
