The Logic Of God:

The Logic of God Ravi Zacharias, 2019-04-02 We all have doubts that challenge our faith We wonder whether the Bible still matters or whether God is truly as loving and personal as we hope In his first ever devotional *The Logic of God* apologist Ravi Zacharias offers 52 readings that explain how and why Christianity the Bible and God are still relevant vital and life changing for us today To all our dilemmas Ravi says I am convinced that Jesus Christ alone uniquely answers the deepest questions of our hearts and minds With a remarkable grasp of biblical facts and a deep understanding of the questions that trouble our hearts Ravi tackles the most difficult topics with ease and understanding But *The Logic of God* is more than intellectual it is also personal offering thoughtful wisdom on when Jesus draws especially near you the deep ray of hope found in God's Word how God transforms disappointments why prayer matters how genuine peace is possible making sense of suffering *The Logic of God* is a USA Today and Wall Street Journal bestseller *The Logic of God* was named the 2020 ECPA Christian Book Award winner for Bible Study category Ravi makes profound biblical truth easy to understand And if your life is busy this book is designed for you It addresses 52 topics that you can read over the course of one year or slowly digest at your own pace Each entry includes a scripture questions for reflection and some practical application steps When you're struggling with questions and doubts confused curious or just want a clearer way to express your faith *The Logic of God* has answers that satisfy the heart and the mind

The Logic of God Incarnate Thomas V. Morris, 2001-04-06 This book is a philosophical examination of the logical problems associated with the claim that Jesus of Nazareth was one and the same person as God the Son the Second Person of the divine Trinity How can a being or person who is omniscient omnipotent omnipresent etc have become human given that humans are limited in knowledge and beset with weaknesses Unless this belief in the incarnation is to be dismissed as pious sentimentality a philosophical case must be made for at least the possible rationality of the idea Tom Morris makes such an attempt in this book Indeed although it claims only to be arguing that the idea of God Incarnate is not impossible *The Logic of God Incarnate* confronts the preponderance of modern philosophical argumentation against the incarnation and manages to put the traditional doctrine in a quite plausible light

The Logic of His Love Francois Du Toit, 2013-04 The word theology means the Logic of God God does not expect us to respond in an unintelligent way to the greatest revelation of knowledge and understanding that man could possibly perceive nor to remain in a haze of confusion concerning our origin our identity our eternal destiny and our present standing before him He has made it possible for us to come into the same understanding to enjoy an equal appreciation of that which he himself enjoys True companionship only makes sense in an environment of mutual compatibility The mission of Jesus was not to add to the mystery of Deity but to bring absolute clarity regarding the person of God as the Father of the human race If you have seen me you have seen the Father Any idea that we could have had of God that is unlike Jesus would not be true about God In Jesus the forgotten Father of the human race introduces himself again as our only true Father Eph 4:5 There is only one faith

Not what we believe about God but what God believes about us Eph 4 6 There is only one God He remains the ultimate Father of the universe We are because he is He is present in all he is above all through all and in all He is not far from each one of us in him we live and move and have our being We are indeed his offspring Acts 17 24 28

The Logic of Idolatry in Seventeenth-century French Literature Ellen McClure, 2020 Idolatry was one of the dominant and most contentious themes of early modern religious polemics This book argues that many of the best known literary and philosophical works of the French seventeenth century were deeply engaged and concerned with the theme In a series of case studies and close readings it shows that authors used the logic of idolatry to interrogate the fractured and fragile relationship between the divine and the human with particular attention to the increasingly fraught question of the legitimacy of human agency Reading d Urf Descartes La Fontaine S vign Moliere and Racine through the lens of idolatry reveals heretofore hidden aspects of their work all while demonstrating the link between the emergent autonomy of literature and philosophy and the confessional conflicts that dominated the period In so doing Professor McClure illustrates how religion can become a source of interpretive complexity and how this dynamism can and should be taken into account in early modern French studies and beyond ELLEN MCCLURE is Associate Professor of History and French University of Illinois at Chicago *The Logic of Events* Andrew Paul Ushenko, 1929 **The Logic of the Unconscious Mind** M. K. Bradby, 1920 *The Logic of Divine Creation*, **The Logic of a Lifetime** Anna M. Longshore Potts, 1911 **The Logic of Hegel** Georg Wilhelm Friedrich Hegel, 1892 *The Logic of Death: Or, Why Should the Atheist Fear to Die?* George Jacob Holyoake, 1874 *The Logic of "God"*. T. P. Brown, 1963 **The Logic of Love** Andrew J. B. Cameron, 2022-12-29

Overviewing what makes the intersection between emotion and ethics so confusing this book surveys an older wisdom in how to manage it using a range of Christian theologians and sources More important even than managing we begin to see a vision for a better set of affections to grow within and among us In this vision emerges a practical and nuanced account of what the Christian tradition sometime summarises as love How may we recover a deep affection for what matters both within ourselves and together in groups This book also dialogues with a new movement in moral psychology social intuitionism Cameron argues that researchers in this discipline have interests and conclusions that sometimes overlap with Christian sources even where their respective lenses differ In this way the book overviews recent trends in moral psychology against a recent historical and contemporary cultural backdrop whilst assaying major sources in Christian theology that offer guidance on moral psychology *Systematic. The logic of practice* Shadworth Hollway Hodgson, 1870 *The Order of God* Aaron Yom, 2018-10-17 In this most up to date study Aaron Yom provides a comprehensive analysis of the doctrine of God particularly from a pneumatological perspective He focuses on retrieving the order of God that has been consistently misunderstood and mistreated by modern scholars The author carefully examines scholarly works of modern thinkers such as Karl Barth Thomas Torrance Karl Rahner David Coffey J rgen Moltmann Clark Pinnock and Stanley Grenz as well as ancient masters such as Augustine and Aquinas With a critical

analysis he highlights the strengths and weaknesses of their work to lay a foundational platform for understanding God's order in the twenty first century theological context Yom proposes a holistic approach that does not marginalize the logic of the Trinity that begins with God's order of ontology rather than God's order of economy though the former is read from the latter He maintains the intricate balance of the immanent Trinity and the economic Trinity with his newfound principle of identity and duality Yom offers several new theological paradigms for those who are interested in the topic of systematic theology

The Incarnation of God Jacob Neusner,2001 Advancing his monumental study of formative Judaism further Jacob Neusner examines the notion of divine incarnations as a central element of the portrait of God that came into focus through the Judaism of the dual Torah In dealing with his concept which is obviously critical for Christian theology also Neusner shows how God was described in allusions and narratives as corporeal exhibiting traits of emotions like those of human beings and doing deeds that women and men do

Coherence, Consonance, and Conversation S. Brian Stratton,2000 Coherence Consonance and Conversation focuses on one of the most intriguing areas in contemporary theology today the relationship between theology and natural science Stratton rejects approaches which see the two disciplines as hostile or irrelevant to each other and argues that theology philosophy and natural science should be viewed as members of an ongoing dialogue which eventually results in a continuous world view Scholars and students of philosophy and theology will enjoy this interesting study

The Silence of God during the Passion Daniel Bourguet,2016-08-03 God's silence during the passion is certainly a silence towards man but in particular God was silent towards Christ in his perfect and complete humanity It is also the silence of the Father towards the Son At first sight this silence is troubling and perhaps shocking suggesting that God is in fact absent However the author invites us to go beyond this first impression and the silence turns out to be of tremendous richness overwhelming depth and surprising beauty We are invited to refocus our attention and discover what the Father is saying in a completely new way These pages sing with love for God and our meditation of the passion narratives draws us into deep contemplation of the One they celebrate the Crucified

Hegel's Philosophy as a Doctrine of the Concreteness of God and man Ivan Alexandrovich Ilyin,2022-01-22 Wealth without work Pleasure without conscience Science without humanity Knowledge without character Politics without principle Commerce without morality Worship without sacrifice <https://vidjambov.blogspot.com/2023/01/book-inventory-vladimir-djambov-talmach.html> The philosophical meaning of Hegelianism is not to disciple but to learn independent and objective knowledge about the most important thing in human life This philosophy of history on the subject approaches the phenomenology of the spirit and differs from the empirical study of the *rerum gestarum* Like the phenomenology of spirit it deals mainly with images of the world but not in a typical understanding of them and not in a speculative sequence the philosophy of history treats individual world images and sorts them out in the order of their temporal appearance This temporary order brings it closer to empirical history but the speculative principle of selection which is used by the philosophy

of history sharply opposes both scientific studies to each other Empirical history in principle does not know speculatively unworthy and therefore unexplored historical singularities she puts herself before the actual composition of the story so that to see everything objectively and adequately while the philosophy of history does not bother itself with the full scope and creates its own speculative judgment prior to empirical study As a result of this empirical history and philosophy of history are given different subjects 4248 the element of spirit is organically united in its general metaphysical essence and at the same time mechanically multiple in its individual empirical phenomena Consciousness which has not speculatively received its light perceiving one empirical surface of being fixes a discrete plurality of people and gets used to the structure of external separation and internal solitude it lives as if there was no other concrete order at all and even tends to insist on its impossibility Speculative insight and acceptance convinces him that the fusion of individual souls has never broken and cannot break but that it was pushed aside as if forced into the depths of being and remained in an unrecognized undisclosed undeveloped irrelevant form leaving separation to dominate on the surface communication A life that cultivates this superficial separation surrendered to it by feeling consciousness and will is a life that is essentially immoral The tragicomedy of man consists in the fact that contemplating only this surface without seeing anything deeper he becomes convinced of his own limitations finiteness and lack of freedom and enters into a struggle with the other being that limits him not suspecting that this is a struggle with a ghost

Trinity, Freedom and Love Piotr Malysz, 2012-08-02 By critically engaging Eberhard Jüngel's doctrine of the Trinity this volume makes a broader constructive contribution to contemporary trinitarian thought The argument centers on the question posed by the inconsistencies uncovered in Jüngel's doctrine of God of how one can assert both divine freedom and the inter subjectivity of God's trinitarian self determination Can one maintain God's freedom in the interest of divine spontaneity and creativity while remaining committed to inter subjective vulnerability which the Cross entails as an event of divine love Malysz suggests that a resolution to this problem lies in a logic of divine freedom which next to the trinitarian logic of love constitutes a different and simultaneous mode of trinitarian relationality To develop this logic Malysz draws on Jüngel's understanding of human freedom as rooted in the elemental interruption of the self securing subject Malysz thus not only brings Jüngel's view of divine freedom into correspondence with the anthropological effects that Jüngel ascribes to it but above all offers an imaginative new way of closely integrating the doctrine of God and theological anthropology

Paul Ricœur, Philosophical Hermeneutics, and the Question of Revelation Christina M. Gschwandtner, 2024-01-08 The topic of revelation is fundamental to any account of religious experience playing a special role in the Judeo Christian tradition where the texts of Scripture are regarded as revealed Yet any reflection on the revealed status of a given message or text requires interpretation Paul Ricoeur one of the most important hermeneutic philosophers of the twentieth century provides crucial insights on how such interpretation might proceed and what it might mean for texts to be revealed Edited by Christina M Gschwandtner Paul Ricoeur *Philosophical Hermeneutics and the Question of Revelation*

brings together major scholars of Ricoeur's work on the topic of revelation showing both the role it already plays in his work and how his thinking might be taken further. Several contributors trace the development of his thought in regard to the concept of revelation. Others discuss the revelatory dimensions of Ricoeur's hermeneutics of the self especially for such issues as identity, trauma, and forgiveness. Several contributions also place his work in conversation with that of other seminal thinkers on the topic of revelation such as Karl Barth and Paul Tillich.
