Graphic Novels in High School and Middle School Classrooms William Boerman-Cornell, Jung Kim, Michael L.

Manderino, 2017-07-05 The ultimate guide for using graphic novels in any middle school or high school classroom this book considers how the graphic novel format can support critical thinking and help reach disciplinary goals in history English language arts science math fine arts and other subjects Using specific graphic novels as examples this book considers how to help students read question and write about both fiction and non fiction Whether teachers are new to graphic novels or have been working with them for years this book will help improve instruction Chapters tell us how to teach with graphic novels focusing on how disciplinary literacy can inform graphic novel instruction how readers should consider text image and the intersection of the two when reading a graphic novel and how graphic novels can encourage critical response and interdisciplinary instruction Throughout the book the authors illustrate important teaching concepts with examples from recent graphic novels Appendices offer recommendations of graphic novels ideal for different disciplines Teachers who are serious about using graphic novels effectively in the classroom will find this book invaluable Small World, a novel

Timothy M. Block, 2025-06-24 What would you do if your spouse and daughter had an illness with no cure For Tom Small a professor and researcher at a Philadelphia medical school the answer is anything it takes Tom believes a discovery he made with a Nobel Prize winning scientist at Oxford could hold the key to a cure But turning this discovery into treatment requires millions of dollars and that means navigating the unfamiliar and sometimes hostile worlds of venture capital and pharmaceutical companies Raised in a working class family and haunted by self doubt since boyhood Tom's journey is one of resilience As a troubled youth during the Vietnam War era he was a hopeless truant and trouble maker and was nearly expelled from middle school until a surprise aptitude test score propelled him to college at 14 Now his own insecurities and phobias are dwarfed by his determination to save his family This novel based loosely on a true story blends the charm and wit of Tom Sawyer and My Family and Other Animals with the profound urgency of Lorenzo's Oil With humor heart and plenty of candid self reflection Small World follows a young family forced to confront challenges they never imagined pushing themselves to the limits in their quest for a cure **Teaching Middle Level Social Studies** Scott L. **The Patchwork of World History in Texas High Schools** Stephen Jackson,2022-11-30 This book traces the historical development of the World History course as it has been taught in high school classrooms in Texas a populous and nationally influential state over the last hundred years Arguing that the course is a result of a patchwork of competing groups and ideas that have intersected over the past century with each new framework patched over but never completely erased or replaced the author crucially examines themes of imperialism Eurocentrism and nationalism in both textbooks and the curriculum more broadly The first part of the book presents an overview of the World History course supported by numerical analysis of textbook content and public documents while the second focuses on the depiction of non Western peoples and persistent narratives of Eurocentrism and nationalism It ultimately offers that a more global accurate and balanced curriculum is possible despite the tension between the ideas of professional world historians who often de center the nation state in their quest for a truly global approach to the subject and the historical core rationale of state sponsored education in the United States to produce loyal citizens Offering a new conceptual understanding of how colonial themes in World History curriculum have been dealt with in the past and are now engaged with in contemporary times it provides essential context for scholars and educators with interests in the history of education curriculum studies and the teaching of World History in the United States
