readers into her world chronicling the experiences that have shaped her from her childhood on the South Side of Chicago to her years as an executive balancing the demands of motherhood and work to her time spent at the world's most famous address. Follows Roy and Kate Dunfey's journey from humble beginners to entrepreneurial success, highlighting their family's influence and diverse contributions. When LeRoy Roy Dunfey called out Hey Dunfey in his fried clam restaurant in the 1940s, at least seven of his twelve children would turn around. Then he'd point to the one he needed without having to remember names: Roy and Catherine. Kate Manning had met and married thirty years earlier as teenage workers in Lowell, Massachusetts textile mills. With little formal education or resources but with a store of humor, entrepreneurial zest, and spiritual roots, they collared the American dream, starting out in 1915 with Dunfey's Orchestra, a luncheonette, and a baby every two years, through the Great Depression to the doorstep of World War II. Written by their twelfth child, this saga reveals the lasting influence her parents had on each of their dozen kids around the kitchen table, digesting political fare over restaurant counters, meeting a diverse world of people into and out of convents, serving as educators on to Boston's Parker House, Omni International Hotel boardrooms, and for forty-five years still around the table of the family's not-for-profit Global Citizens Circle's civil dialogues. — *Everything You Need to Write Great Essays* Jay Douglas, Ph.D., 2011-07-05

Ready Action: Write. A student's writing skill is the single best predictor of success in the first year of college, better than math, vocabulary, grammar, or reading prowess. Unfortunately, while high schools teach students the mechanics of writing, they don't address issues such as getting unstuck, writing a first draft, brainstorming, finding the thesis that's hiding in an essay, soliciting useful feedback, or telling a story in pictures. This unique guide does by capitalizing on what students know a lot about: the movies. Students read inside stories about their favorite films online. They watch behind-the-scenes bonus material on DVDs. They know how films work. What they don't know is that the writing and filmmaking processes are remarkably similar. In this book, they'll learn to shift their focus from word counts to process as they move from pre-production (preparing to write) to shooting their first draft in the production phase and then running their results through post-production to perfect their work. — *Elements of Rhetoric and English Composition* George Rice Carpenter, 1899
