network Managing risk Protecting your network Network monitoring and troubleshooting **Tom Peters and Management** David Collins,2021-12-26 Tom Peters is the management guru s management guru His is the story that launched a thousand management stories This new book offers a critical assessment of Tom Peters contribution to management thought and practice The author a globally recognized expert on management gurus places Tom Peters at the forefront of the narrative turn in management Charting and accounting for Tom Peters contributions to management the book analyses the practices that Peters has used to shape our appreciation of the business of excellence and in so doing probes and accounts for the preferences of the excellence project An accessible and illuminating work the book will appeal to students and scholars as well as thoughtful managers and leaders **Computer Games and Technical Communication** Jennifer deWinter,Ryan M. Moeller,2016-05-23 Taking as its point of departure the fundamental observation that games are both technical and symbolic this collection investigates the multiple intersections between the study of computer games and the discipline of technical and professional writing Divided into five parts Computer Games and Technical Communication engages with questions related to workplace communities and gamic simulations industry documentation manuals gameplay and ethics training testing and number crunching and the work of games and gamifying work In that computer games rely on a complex combination of written verbal visual algorithmic audio and kinesthetic means to convey information technical and professional writing scholars are uniquely poised to investigate the intersection between the technical and symbolic aspects of the computer game complex The contributors to this volume bring to bear the analytic tools of the field to interpret the roles of communication production and consumption in this increasingly ubiquitous technical and symbolic medium Mike Meyers' CompTIA Network+ Guide to Managing and Troubleshooting Networks Lab Manual, Fourth Edition (Exam N10-006) Mike Meyers,Jonathan S. Weissman,2015-06-05 Practice the Skills Essential for a Successful IT Career Mike Meyers CompTIA Network Guide to Managing and Troubleshooting Networks Lab Manual Fourth Edition features 80 lab exercises challenge you to solve problems based on realistic case studies Lab analysis tests measure your understanding of lab results Step by step scenarios require you to think critically Key term quizzes help build your vocabulary Get complete coverage of key skills and concepts including Network architectures Cabling and topology Ethernet basics Network installation TCP IP applications and network protocols Routing Network naming Advanced networking devices IPv6 Remote connectivity Wireless networking Virtualization and cloud computing Network operations Managing risk Network security Network monitoring and troubleshooting Instructor resources available This lab manual supplements the textbook Mike Meyers CompTIA Network Guide to Managing and Troubleshooting Networks Fourth Edition Exam N10 006 which is available separately Solutions to the labs are not printed in the book and are only available to adopting instructors **Narrating the Management Guru** David Collins,2007-04-25 David Collins a well respected scholar of management gurus proves a critical reappraisal of the very influential work of Tom Peters This volume examines his key works and reviews his detractors

offering an analysis of his contributions to the field of management that goes beyond the simple chronological model that has previously been used Collins focuses on the changing narratives of Tom Peters and proposes a four fold narrative typology to explore this guru s evolving account of the business of management The book argues that Peters success as a guru derives from his abilities as a storyteller The author notes a decline in Peters storytelling and an increasing reliance on certain story types Furthermore he observes that this guru now tends to place himself at the centre of his narratives of business and change On the strength of this analysis Collins concludes that Peters has lost the plot and argues that new and more appropriate narratives must be sought and developed Critical and compelling this excellent book is a must read for all students and instructors working across the management spectrum especially in the areas of management organizational behaviour change management and corporate strategy
