repurposed initially as post war internment camps and subsequently as penal institutions military compounds or housing encampments Over time many were transformed into sites of memory to commemorate Nazi persecution Governments and groups of survivors have often determined the re use and commemoration of KZs but these processes take place on local territory and have direct implications for nearby communities Therefore locals have continued to interact with camp legacies Nazi Camps and their Neighbouring Communities examines how local populations evolved to live with the Nazi camps both before and after the war Helen J Whatmore Thomson evaluates the different sorts of locality camp relationships that developed in wartime France Germany and the Netherlands and how these played out in post war scenarios of re use and memorialization Using three case studies of major camps in western Europe Natzweiler Struthof Neuengamme and Vught the book traces the contested developments of these camp sites in the changing political climates of the post war years and explores the interrelated dynamics and trajectories of local and national memory **Cuba Update** ,1988 **Astrophysics,**
