The book has well turned out to be a boon for researchers from academia as well as industry. The book seemingly meets the requirement and encounters the dilemma of a first-time researcher in many ways. The basics of research paper writing are taken well care in the previous editions of the handbooks as proceedings published by Prestige Institute of Management and research Gwalior. The previous editions focused on steps to carry out review of literature, setting objectives, developing hypothesis, selecting appropriate methods as per objectives, drawing inferences, followed by referencing styles. The book not only provides insights to a first-time researcher but also introduces them with the latest tools. Part one of the book presents introduction to E views as Chapter 1. The chapter deals with step-wise procedure to work with E views elaborately. E Views is widely used in numerous econometric analyses along with statistical analysis. E views provided analysis like cross-section, time series, estimates, and forecasts as well as does panel data analysis simultaneously. Chapter 2 is modestly written to introduce Mendeley to the researcher. Mendeley is expedient for copious objectives like conducting systematic literature review, research gap identification, setting objectives thereafter, and more over provides a most vital efficacy to manage research papers in a stress-free manner. Mendeley is widely used amongst researchers across the globe as a referencing tool as well providing competence to incorporate any style of referencing within fraction of seconds. Thus taking research on next level. Part two of the book contains twelve research papers covering diverse domains like finance, marketing, HR, and IT. The research papers are the sample papers exhibiting the concepts of writing a well-structured paper and elaborating the procedures to be followed while writing a research paper. The research papers included in the book are developed during the Five Day

National Research Methodology Workshop organized by Prestige Institute of Management and research Gwalior The paper writing work was divided into before during and after phases Topic finalization measure development review of literature and data collection was done before the initiation of workshop among the teams of registered participants The entire methodology application of data analysis tools and discussion was done during the workshop Post workshop i e the after phase was exclusively dedicated for strengthening the review of literature discussion of results and referencing followed by improvement in the overall structure and language of the research paper We hope the efforts put in the book will surely help readers

students needs she found their learning accelerated All teachers will appreciate her ideas about how to teach the basics of math as well as advanced math concepts And her ideas for teaching the arts are inspirational as she describes in detail how her fourth graders performed Shakespeare s Hamlet Macbeth King Lear Julius Caesar and A Midsummer Night s Dream She also shows how to integrate social studies with literature and writing Her experiences taught her that young students are much more capable than many people realize The Conscious Teacher is an indispensable guide for all new teachers Many of the ideas Ms Nichols Poulos provides will also be an eye opener for parents and experienced teachers as well The Conscious Teacher is simply a must have for anyone truly interested in giving young children a positive and solid foundation for their later schooling
