

Example Literary Essay: The Giver by Lois Lowry

Example Introduction Paragraph:

“The real voyage of discovery consists not in seeking new landscapes, but in having new eyes.” This quote by Marcel Proust speaks of discovering what’s right in front of you by seeing it differently, with “new eyes.” The main character, Jonas, in Lois Lowry’s The Giver goes through a similar experience when he discovers his “Capacity to See Beyond.” Jonas begins to see his Community differently, with an awareness or mindfulness that most people in the Community have lacked. **Mindfulness, in fact, is one of central themes in The Giver.** Although the book begins with what seems to be a perfect place, it turns out that the people in the Community are living shallow and superficial lives. As Jonas begins his work as the Receiver of Memories, he gains wisdom and through that wisdom, learns that in protecting the Community from the memories, their lives have lacked feeling and understanding. In the end, Jonas learns to value his new way of seeing and chooses to risk everything to restore mindfulness and wisdom to everyone in the Community.

Example Body Paragraph for First Argument (Main Point #1):

The people in Jonas’s Community share their feelings with family members in their dwellings each evening. However, the feelings they share are merely surface feelings shared by mindless people numbly going about their day, shallow and superficial. For example, when Lily expressed anger over the incident at the park with the boy from another community who did not follow the rules, it was not truly anger. Instead, Jonas realized, she felt “**impatience and exasperation**” (pages

Women in Culture Bonnie Kime Scott, Susan E. Cayleff, Anne Donadey, Irene Lara, 2016-05-24. The thoroughly revised Women in Culture 2e explores the intersections of gender, race, sexuality, gender identity, and spirituality from the perspectives of diverse global locations. Its strong humanities content, including illustrations and creative writing, uniquely embraces the creative aspects of the field. Each of the ten thematic chapters leads to creative readings, introducing a more intersectional thinking amongst students' humanistic angle than is typical of textbooks in the field. A detailed timeline of feminist history, criticism, and theory is provided, and the glossary encourages the development of critical vocabulary. A variety of illustrations supplement the written materials, and an accompanying website offers instructors pedagogical resources.

On Essays Thomas Karshan, Kathryn Murphy, 2020-09-04. Montaigne called it a ramble. Chesterton the joke of literature, and Hume an ambassador between the worlds of learning and of conversation. But what is an essay, and how did it emerge as a literary form? What are the continuities and contradictions across its history from

Montaigne's 1580 *Essays* through the familiar intimacies of the Romantic essay and up to more recent essayists such as Virginia Woolf, James Baldwin and Claudia Rankine. Sometimes called the fourth genre, the essay has been overshadowed in literary history by fiction, poetry and drama and has proved notoriously resistant to definition. *On Essays* reveals in the essay a pattern of paradox: at once a pedagogical tool and a refusal of the methodical languages of universities and professions; politically engaged but retired and independent; erudite and anti-pedantic; occasional and enduring; intimate and oratorical; allusive and idiosyncratic. Perhaps because it is a form of writing against which literary scholarship has defined itself, there has been surprisingly little work on the tradition of the essay. Neither a comprehensive history nor a student companion, *On Essays* is a series of seventeen elegantly written essays on authors and aspects in the history of the genre, essays which taken together form the most substantial book yet published on the essay in Britain and America. MIL Prof. (Dr.) Sangeeta Arora, Dr. Ram Sharma, 2023-07-01. E-Book for All Undergraduate Course First Semester of Uniform Syllabus of All Universities of Bihar According to National Education Policy NEP 2020 Based on Choice Based Credit System CBCS for Four Year Undergraduate Programme by Thakur Publication. **Symmetry** Marc J. Straus, 2000. In this second book of poems, oncologist Marc J. Straus addresses the hopes and the tragedies of his profession. The work is a commentary on his experience in the medical field and a collection of rich, vivid monologues written from the points of view of both doctor and patient. These poems show a rare sensitivity not only to those who are suffering but also to the details that distinguish each life.

Language and History in Adorno's Notes to Literature Ulrich Plass, 2013-11-15. *Language and History in Theodor W. Adorno's Notes to Literature* explores Adorno's essays on literature as an independent contribution to his aesthetics with an emphasis on his theory and practice of literary interpretation. Essential to Adorno's essays is his unorthodox treatment of language and history and his elaboration of the links between the two. One of Adorno's major but often neglected claims is that truth is relative to its historical medium, language. Adorno persistently and creatively tries to narrow the gulf between truth and expression, philosophy and rhetoric, and his essays on literature are practical examples of his effort to critically rescue the rhetorical dimension of philosophy. Rather than relying exclusively on aesthetic concepts inherited from his predecessors in the Western tradition (Kant, Hegel, Nietzsche, Kierkegaard), Adorno's essays seek to transgress and transcend the conceptual limitations of aesthetic discourse by appropriating a non-conceptual, metaphorical vocabulary borrowed from the literary texts he investigates. Thus, Adorno's interpretations of literature mobilize an alternative, subterranean, primarily essayistic and fragmentary discourse on language and history that eludes the categories that tend to predominate his thinking in his major work, *Aesthetic Theory*. This book puts forth the claim that Adorno's essays on literature are of central relevance for an understanding of his aesthetics because they challenge the conceptual limitations of philosophical discourse.
