Media convergence is the most significant development in the news industry in the last century. The ability to interchange text, audio, and visual communication over the Internet has fundamentally transformed the way news organizations operate. Convergence has enabled media companies to gather, disseminate, and share information over a variety of platforms. Throughout the history of journalism, it has been common for journalists to study one medium, such as traditional print or broadcast, and to anticipate a career working only in their chosen field. However, the 21st century journalist has fluidity to write and deliver news content in a variety of formats. source: <http://www.convergencejournalism.com> *Broadcast News Writing, Reporting, and Producing* presents a solid foundation for any student learning how to become a broadcast journalist in today's world of convergent journalism. It is more important than ever that broadcast textbooks cover the most current trends in media. Broadcast journalism continues to morph as newer and more advanced content platforms are hatched and developed, and broadcast journalists must understand how to write, report, and produce for multiple platforms simultaneously. Just one crucial fact remains: students will need training on how to perform successfully in a world in which current events aren't just shown on the ten o'clock evening news. *Broadcast News Writing, Reporting, and Producing* will be completely overhauled to reflect the trends of convergent journalism. together studies focusing on two key issues in the development of children's narrative skills. The first part of the Volume addresses the issue of the interrelatedness between narrative skills and literacy language and socio-cognitive development as well as of the impact of narrative practices on the promotion of these different skills. The second part of the Volume addresses the issue of how early interactional experiences, particular contextual settings and specific intervention procedures can help children promote their narrative skills. The studies span a wide age range from toddlers to late elementary school children, concern different languages (Dutch, English, French, German, Hebrew and Italian) and consider narrative skills and practices from a rich variety of theoretical and methodological approaches.

Boy Writers Ralph Fletcher, 2023-10-10
Writing test scores indicate that boys have fallen far behind girls across the grades. In general, boys don't enjoy writing as much as girls. What's wrong? How can we do a better job of creating boy-friendly classrooms so their voices can be heard? In *Boy Writers: Reclaiming Their Voices*, Ralph Fletcher draws upon his years of experience as staff developer, children's book author and father of four boys. He also taps the insights from dozens of writing teachers around the US and abroad. *Boy Writers* asks teachers to imagine the writing classroom from a boy's perspective and consider specific steps we might take to create stimulating classrooms for boys. Topic choice emerges as a crucial issue. The subjects many boys like to write about (war, weapons, outlandish fiction, zany or bathroom humor) often do not get a warm reception from teachers. Fletcher argues that we must widen the circle and give boys more choice if we want to engage them as writers. How? We must begin by recognizing boys and the world in which they live. *Boy Writers* explores important questions such as: What subjects are boy writers passionate about and what motivates them as writers? Why do boys like to incorporate violence into their stories and how much should be allowed? Why do we so often misread and misunderstand the humor boys include in their stories? In addition, the book looks at how handwriting can hamstring boy writers and how drawing may help. Welcoming boy-friendly writing genres in our classrooms, ways to improve our conferring with boys and more. Each chapter begins with a thorough discussion of a topic and ends with a highly practical section titled "What can I do in my classroom?" *Boy Writers* does not advocate promoting the interests of boys at the expense of girls. Rather, it argues that developing sensitivity to the unique facets of boy writers will help teachers better address the needs of all their students.
