Ultimate X-Men Vol. 8 Brian Michael Bendis, 2012 Collects Ultimate X Men 40-45 **Toxic Masculinity** Esther De Dauw, Daniel J. Connell, 2020-08-25 Contributions by Daniel J. Connell, Esther De Dauw, Craig Haslop, Drew Murphy, Richard Reynolds, Janne Salminen, Karen Sugrue, and James C. Taylor The superhero permeates popular culture from comic books to film and television to internet memes, merchandise, and street art. *Toxic Masculinity: Mapping the Monstrous in Our Heroes* asks what kind of men these heroes are and if they are worthy of the unbalanced amount of attention. Contributors to the volume investigate how the super hero in popular culture conveys messages about heroism and masculinity, considering the social implications of this narrative within a cultural reproduction of dominant hegemonic values and the possibility of subaltern ideas, norms, and values to be imagined within that reproduction. Divided into three sections, the volume takes an interdisciplinary approach, positioning the impact of hypermasculinity on toxic masculinity and the vilification of other identities through such mediums as film, TV, and print comic book literature. The first part, *Understanding Super Men*, analyzes hegemonic masculinity and the spectrum of hypermasculinity through comics, television, and film, while the second part, *The Monstrous Other*, focuses on queer identity and femininity in these same mediums. The final section, *Strategies of Resistance*, offers criticism and solutions to the existing lack of diversity through targeted studies on the performance of gender. Ultimately, the volume identifies the ways in which superhero narratives have promulgated and glorified toxic masculinity and offers alternative strategies to consider how characters can resist the hegemonic model and productively demonstrate new masculinities.

The Multiverse as Theory in Postmodern Speculative Fictional Narratives Angélica Cabrera Torrecilla, Francisco Sáez de Adana, 2024-11-15 *The Multiverse as Theory in Postmodern Speculative Fictional Narratives* considers the concept of the multiverse beyond the immediacy of being merely an excuse or scenario for the development of stories, instead positioning the multiverse as a theoretical method in which speculative fiction narratives can explore diverse issues to bridge ideas across cultural, social, and philosophical analysis. Taking a cross-cultural approach, the book centres around the critical engagements that literary and media texts have with the representations of the multiverse beyond considering this subject as a mere rhetorical flourish or a passing fad. A diverse and international team of authors engage with the multiverse from the point of view of other worlds, understanding it not as the appearance of another independent world but as the collision of two or more different worlds into one of them. From this key finding, the multiverse encourages us to pay attention to the influence that fiction exerts on narratives and world building, providing possible frameworks to rethink critical aspects of temporality, space, self, society, and culture in contemporary times. This pioneering work will interest students and scholars working in the areas of media and cultural studies, comparative literature, popular culture studies, speculative fiction, and transmedia studies.
