Shopping Material Culture Perspectives:

Shopping Deborah C. Andrews, 2014-11-25 The degree to which shopping or more broadly consumerism is both critiqued and defended in American society confirms the role that commercial goods play in our daily lives This collection of essays provides case studies depicting selected aspects of this engaging activity The authors include several historians with diverging specialties an art historian an anthropologist an environmental journalist a geographer and urban planner and practicing artists Each author demonstrates how a material culture perspective a focus on the relationship between people and their things can illuminate a specific corner of consumption Connecting the essays are concerns about the spaces in which shopping occurs about the experience of shopping itself both individual and social and about its economic environmental and personal downsides Collectively these essays demonstrate how a material culture perspective on shopping yields insights into multiple aspects of American culture

A Cultural History of Shopping in the Modern Age Vicki Howard, 2022-06-02 A Cultural History of Shopping was a Library Journal Best in Reference selection for 2022 In the modern consumer age that emerged after the First World War shopping became a ubiquitous cultural practice Despite its apparent universality the historicity and contingency of shopping should not be ignored its meaning was always inextricably linked to the political material and economic contexts within which it took place Gendered female for the most part shopping continued to evoke different cultural responses embraced as liberatory by some condemned as frivolous by others Business decisions and public policies helped construct the frameworks within which new often American led shopping cultures emerged from downtown department stores to chain stores to suburban shopping malls The digital revolution in shopping that began in the last decade of the 20th century has changed the face of cities and towns and led to the closure of many bricks and mortar stores but as this volume explores the shopper remains very much at the center of Western capitalist societies A Cultural History of Shopping in the Modern Age presents an overview of the period with themes addressing practices and processes spaces and places shoppers and identities luxury and everyday home and family visual and literary representations reputation trust and credit and governance regulation and the state

A Cultural History of Shopping in the Age of Revolution and Empire Erika Rappaport, 2022-06-02 A Cultural History of Shopping was a Library Journal Best in Reference selection for 2022 Shopping emerged as a special pleasure and problem during the period between the revolutionary upheavals of the late 18th century and the opening salvos of the Great War New shops new products new class and gender ideologies new standards of comfort and hygiene and rising living standards for some meant that people especially women spent more time shopping and engaging in consumer oriented activities beyond the walls of the shop At the same time social commentators local and national authorities economists and many husbands became concerned about the dangers of shopping believing that the department store was emancipating women and destroying society in the process This volume explores shopping in the 19th century as a varied and embedded social political economic and cultural activity It

draws out the continuities with earlier periods as well as examining how the department store came to be seen as both symbol and generator of profound economic social and cultural change **A Cultural History of Shopping in the Age of Revolution and Empire** presents an overview of the period with themes addressing practices and processes spaces and places shoppers and identities luxury and everyday home and family visual and literary representations reputation trust and credit and governance regulation and the state **Contemporary Perspectives on Shopping, Retail and Tourism** Dallen J.

Timothy, 2025-04-15 In the contemporary world of guaranteed change shopping remains a constant in the tourism experience even though its forms measures functions and manifestations are continuously evolving This book offers traditional perspectives on shopping and tourism and updates current thinking in relation to experiences and internal and external forces that affect retail change and shopping behaviour It also examines how technology and changes in travel create new retail spaces virtual spaces and retailscapes in tourism contexts The volume provides a global perspective with empirical examples being utilised from many parts of the world in a series of conceptually driven chapters on current issues opportunities challenges and paradigms in the relationship between shopping and tourism **A Business History of Retail**

Bettina Liverant, 2024-09-05 Although transformations in retailing are of tremendous current interest there is no single broad ranging account of the evolution of retailing formats **A Business History of Retail** fills this gap providing a chronological presentation of changes in retail businesses and shopping experiences from pre industrial times to the present Retailing is explored as both an economic and a cultural phenomenon tracing retail strategies and business operations as they are reconfigured by retailers adapting to changing conditions new technologies government policies and evolving markets Relationships between the makers sellers and buyers of goods are shaped and reshaped as retailers large and small respond to competition and pursue new opportunities Areas of continuity are identified even as businesses grow and strategies evolve After four centuries there are more retailers selling more merchandise in more ways to more customers The mass consumption of goods and services is central to American and Canadian history and understanding consumer society requires understanding retailing Combining original research with recent scholarship in business and social history cultural theory and readings in current retail business strategy this study provides a valuable resource for students and scholars in a wide range of fields and will appeal to general readers with an interest in retail shopping and consumerism Cheap Street

Victoria Kelley, 2019-08-06 From around 1850 London's street markets grew in number and scale giving working class Londoners a site for shopping entertainment and sociability Cheap Street is the first major study of this subject analysing the street markets as a component of London's lively informal economy and providing new insights into urban and consumer geographies **A Cultural History of Shopping in the Middle Ages** James Davis, 2022-06-02 **A Cultural History of Shopping** was a Library Journal Best in Reference selection for 2022 Throughout Europe the collapse of Roman authority from the 5th century fractured existing networks of commerce and trade including shopping The infrastructure of trade was

slowly rebuilt over the centuries that followed with the growth of beach markets emporia seasonal fairs and periodic markets until in the late Middle Ages the permanent shop re emerged as an established part of market spaces both in towns and larger urban centers Medieval society was a display culture and by the 14th century there was a marked increase in the consumption of manufactures and imported goods among the lower classes as well as the elite This volume surveys our understanding of medieval retail markets shops and shopping from a range of perspectives spatial material culture literary archaeological and economic A Cultural History of Shopping in the Middle Ages presents an overview of the period with themes addressing practices and processes spaces and places shoppers and identities luxury and everyday home and family visual and literary representations reputation trust and credit and governance regulation and the state The Social Life of Unsustainable Mass Consumption Magnus Boström,2023-08-21 The Social Life of Unsustainable Mass Consumption draws on a variety of theories and research to contribute to our understanding of unsustainable mass consumption It addresses the role of identities social relations interactions belonging and status comparison and how perceived time scarcity is both a cause and an effect of consumption It examines the power of consumer norms and how overconsumption is normalized and shows how consumption is embedded in the time space arrangements of everyday life Magnus Boström contextualizes such drivers within the larger institutional and infrastructural forces underlying mass consumption including the economy growth politics and the problematic promises of consumer culture Boström further draws on lessons from lived experiments of consuming less and discuss how insights about the flaws of consumer culture can help shape a growing critique and countermovement a collective detox from consumerism *Designing Technical and Professional Communication* Deborah C. Entangled Things Alison Hulme, 2024-08-22 *Entangled Things* takes the concept of entanglement as its starting point in investigating the relationship between us and the material things we engage with Each chapter illustrates a particular form of entanglement desiring things hoarding things creating things ridding ourselves of things using ethnographic examples and theoretical perspectives Hulme encourages a wider consideration of the place of humans in the world and the kind of choices we enact when influenced by the material things around us She explores our relationships with material objects in light of both personal and planetary space and personal and historical time from the space in our homes storage spaces landfill and oceans to the times in our lives and the times in wider shared histories that things connect us to not to mention our sense of time and our own place in the world In so doing Hulme intentionally places discussions on our entanglement with things squarely back into the context of the Anthropocene with a provocative analysis in which the Anthropocene is posited as a concept which on one hand takes away human agency placing us in the context of immense geological epochs whilst on the other hand pushes agency upon humans blaming us for the extreme challenges of the current era and looking to us to solve those challenges For Hulme material things are instrumental in helping us to grasp our existential place in the world and weave a way through the complications of living in epochal times **Artifacts from Modern America** Helen

Sheumaker, 2017-11-03 This intriguing book examines how material objects of the 20th century ranging from articles of clothing to tools and weapons communication devices and toys and games reflect dominant ideas and testify to the ways social change happens Objects of everyday life tell stories about the ways everyday Americans lived Some are private or personal things such as Maidenform brassiere or a pair of patched blue jeans Some are public by definition such as the bus

Rosa Parks boarded and refused to move back for a white passenger Some material things or inventions reflect the ways public policy affected the lives of Americans such as the Enovid birth control pill An invention like the electric wheelchair benefited both the private and public spheres it eased the lives of physically disabled individuals and it played a role in assisting those with disabilities to campaign successfully for broader civil rights Artifacts from Modern America demonstrates how dozens of the material objects items technologies or inventions of the 20th century serve as a window into a period of history After an introductory discussion of how to approach material culture the world of things to better understand the American past essays describe objects from the previous century that made a wide ranging or long lasting impact The chapters reflect the ways that communication devices objects of religious life household appliances vehicles and tools and weapons changed the lives of everyday Americans Readers will learn how to use material culture in their own research through the book s detailed examples of how interpreting the historical cultural and social context of objects can provide a better understanding of the 20th century experience

Critical Perspectives on Diversity, Equity, and Inclusion in Marketing Gbadamosi, Ayantunji, 2022-05-20 Marketers have attracted criticism from advocates of marketing ethics for not giving equal attention to all consumers In other contexts other nomenclatures such as less privileged or low income consumers are being used to describe consumers However a critical view of the scope of the disadvantaged consumers shows that it is beyond having limited income and encapsulates all forms of limitations that prevent full inclusion in marketplace opportunities Critical Perspectives on Diversity Equity and inclusion in Marketing focuses on exploring diversity equity and inclusion in marketing as related to individuals groups organizations and societies It provides insight into consumption practices diversity inclusion limitations and their theoretical and practical implications Covering topics such as ethnic identity negotiation marketing implications and consumer vulnerability this premier reference source is an eclectic resource for business leaders and managers marketers sociologists DEI professionals libraries students and educators of higher education researchers and academicians

Beyond Piggly Wiggly Lisa C. Tolbert, 2023-08-01 Patented in 1917 Piggly Wiggly was by far the most influential self service store of the early twentieth century Before 1940 it was the only self service chain with a national distribution network but it was neither the first nor the only version Beyond Piggly Wiggly reveals the importance of Piggly Wiggly in the invention of self service and goes beyond the history of a single firm to explore the role of small business entrepreneurs who invented the first self service stores in a grassroots social process During the 1920s and 1930s a minority of enterprising grocers experimented with a wide variety of sometimes wacky design ideas for automating shopping They created specialized stores designed as enclosed retail systems that went far beyond open display techniques to construct unique physical and psychological advantages for automating salesmanship Beyond Piggly Wiggly offers the first perspective on the national scale of experimentation and connects the southern Jim Crow origins of self service to the national history of this mass retailing method Empirical analysis of store arrangements demonstrates how

small stores that have previously been overlooked or undervalued as quaint anomalies were integral to the creation of supermarkets Ultimately self service was more than a business decision it was a fundamentally new social practice

Strengths-Based Therapy Elsie Jones-Smith,2013-01-09 Combining both the theory and practice of strengths based therapy Elsie Jones Smith introduces current and future practitioners to the modern approach of practice presenting a model for treatment as well as demonstrations in clinical practice across a variety of settings This highly effective form of therapy supports the idea that clients know best about what has worked and has not worked in their lives helps them discover positive and effective solutions through their own experiences and allows therapists to engage their clients in their own therapy Drawing from cutting edge research in neuroscience positive emotions empowerment and change Strengths Based Therapy helps readers understand how to get their clients engaged as active participants in treatment Examining the COVID Crisis from a Geographical Perspective Sara Beth Keough,David H. Kaplan,2023-03-31 This book presents several perspectives on the COVID 19 crisis as it impacted the United States focusing on policies practices and patterns It considers the relationship between government policies and neo liberalism anti federalism economies of scale and material culture The COVID 19 crisis became the primary current event in the United States in March 2020 and continued for several years In the early days of the crisis the United States lacked a cohesive comprehensive approach to combating its spread As a result the pandemic was experienced differently in different parts of the United States and at different scales The chapters in this volume include both quantitative and qualitative explorations of the pandemic as it occurred in the United States Collectively they help the reader to better understand this geographically salient issue and provide lessons to learn from so as to improve upon responses to crises in the future This book will be of interest to students and researchers of Geography Sociology Political Science and Economics with an interest in United States and the socio political effects of the COVID 19 pandemic The chapters in this book were originally published as a special issue of Geographical Review Global Art in Local Art Worlds Oscar Salemink,Amélia Siegel Corrêa,Jens Sejrup,Vibe Nielsen,2023-03-30 This book explores the attribution and local negotiation of cultural valuations of artistic and art institutional practices around the world and considers the diverse ways in which these value attributions intersect with claims of universality and cosmopolitanism Taking Michael Herzfeld's notion of the global hierarchy of value as point of departure the volume brings together six empirical studies of the collection circulation classification and exhibition of objects in present day Brazil China India Japan South Africa and Indigenous Australia in light of Europe's loss of global hegemony Including reflections by a number of senior scholars the chapters demonstrate that the question of valuation lies at the heart of artistic and art institutional practices writ large including museum practices museum architecture galleries auction houses art fairs and biennales **Urban Ghana and Privacy in the Digital Age** Elad Ben Elul,2022-04-20 This book explores privacy practices and the role of digital technologies in the lives of urban Ghanaians considering how they use language materiality and culture to maintain sharp boundaries between

the private and public Focusing on the harbour town of Tema it offers rich ethnographic portraits that cover topics such as nightlife domestic architecture religion and social media The volume demonstrates how transformations across Africa such as Pentecostal reformation neoliberal reforms and rapid digitisation all raise the need for privacy among middle class urbanites who use brand new and very traditional strategies to uphold an image of their economic or religious state Overall the book highlights how digital technologies intertwine with local cultures and histories and how digital anthropology enhances our understanding of the offline as much as the online It makes a valuable contribution to discourse about the right for privacy and surveillance in the digital age and will be of interest to scholars from anthropology and African studies

The Materiality of Nothing Helen Holmes, 2023-07-31 The Materiality of Nothing explores the invisible intangible and transient materials and objects of everyday life and the relationships we have with them Drawing on over 15 years of original empirical research it builds on growing research on the everyday and unites the established field of material culture and materiality with emerging sociological studies exploring notions of nothing and the unmarked The chapters cover topics such as lost property museum curation plastic microfibres thrift music and even hair illuminating how invisible and intangible materials conjure memories meanings and identities inextricably binding us to other people places and things In turn the book also engages with issues of sustainability and consumption raising questions regarding society's increasing need for material accumulation and posing some alternatives

Shopping and the Senses, 1800-1970 Serena Dyer, 2022-03-12 This book demonstrates the primacy of touch smell taste sight and sound within the retail landscape It shows that histories of the senses body and emotions were inextricably intertwined with processes and practices of retail and consumption Shops are sensory feasts From the rustle of silk to the tempting aroma of coffee the multi sensory appeal of goods has long been at the heart of how we shop This book delves into and beyond this seductive idyl of consumer sensuality Shopping was a sensory activity for consumers and retailers alike but this experience was not always positive This book is inhabited by tired feet and weary workers as well as eager shoppers It considers embodied sensory experiences and practices and it represents both a celebration and interrogation of the integration of sensory histories into the study of retail and consumption Crucially this book places breathing feeling human bodies back into the retail space
