Revolutionary Essays on Life, Earth, and Politics Sherman Lewis, 2023-05-10. Science, not speculative philosophy, is the only guide, however imperfect, to the nature of existence. Science, culture, uses, and supports science. The social brain experiences free will and needs religious faith. Empathy is a choice based on intuition. We need a better scientific understanding of dogma and chauvinism, and this book explores these issues. It also describes the Crisis of the Anthropocene described in under a hundred pages, is a wakeup that needs to overcome ignorance and naive optimism, and reach our deepest emotions. Topics include climate change, biodiversity, pollutants, population, and political causes behind the collapse. This book also presents data from Internationalcomparisons.org that demonstrates that the US is neither advanced nor a democracy and has failed to deal with guns, reproductive rights, taxation, social welfare, fiscal discipline, and other issues. Even with these already significant problems, Americans must face there is even more Trumpism and Putinism, are existential threats to American freedom and democracy. This book presents a framework for others to act in the time of these issues.

Suburban Life, the Countryside Magazine, 1908 *The life of John Ruskin* William Gershom Collingwood, 2023-06-26. If origin, if early training and habits of life, if tastes and character and associations fix a man's nationality, then John Ruskin must be reckoned a Scotsman. He was born in London, but his family was from Scotland. He was brought up in England, but the friends and teachers, the standards and influences of his early life were chiefly Scottish. The writers who directed him into the main lines of his thought and work were Scotsmen: from Sir Walter and Lord Lindsay and Principal Forbes to the master of his later studies of men and the means of life, Thomas Carlyle. The religious instinct so conspicuous in him was a heritage from Scotland; thence the combination of shrewd common sense and romantic sentiment, the oscillation between levity and dignity, from caustic jest to tender earnest, the restlessness, the fervour, the impetuosity: all these are the tokens of a Scotsman, of parts and were highly developed in John Ruskin. P. 13. In the days of auld lang syne, the Rhynns of Galloway, that hammer-headed promontory of Scotland which looks towards Belfast Lough, was the home of two great families, the Agnews and the Adairs. The Agnews, of Norman race, occupied the northern half, centring about their island fortress of Lochnaw, where they became celebrated for a long line of hereditary sheriffs and baronets who have played no inconsiderable part in public affairs. The southern half, from Portpatrick to the Mull of Galloway, was held by the Adairs, or as formerly spelt Edzears, who took their name from Edgar, son of Dovenald, one of the two Galloway leaders at the Battle of the

Standard Three hundred years later Robert Edzear who does not know his descendant and namesake Robin Adair settled at Gainoch near the head of Luce Bay and for another space of 300 years his children kept the same estate in spite of private feud and civil war and religious persecution of which they had more than their share **The Countryside Magazine and Suburban Life** ,1911
