I'm Teaching Middle School Science* C. Jill Swango, Sally Boles Steward, 2003 Like your own personal survival guide, *Help! I'm Teaching Middle School Science* is a nontechnical how-to manual, especially for first-year teachers. But even veteran teachers can benefit from the plentiful ideas, examples, and tips on teaching science the way middle schoolers learn best. The book covers all the basics: what to do on the first day of school, including icebreaker activities; preparing safe and effective lab lessons; managing the classroom; working with in-school teams as well as parents. But its practical and encouraging approach doesn't mean it shortchanges the basics of effective pedagogy. You'll learn how to handle cooperative learning and assessment; how to help students write effectively; and the importance of modeling for early adolescents.
