Chekhov's Children Nadya L. Peterson, 2021-08-15 Anton Chekhov's representations of children have generally remained on the periphery of scholarly attention Yet his stories about children which focus on communication and the emergence of personhood also illuminate the process by which the author forged his own language of expression and occupy a uniquely important place within his work Chekhov's Children explores these stories dating from Chekhov's early writings in the 1880s as a distinct body of work unified by the theme of maturation and by the creation of a literary model of childhood Nadya Peterson describes the evolution of Chekhov's model and its connection with the prevalent views on children in the literature education medicine and psychology of his time As with his later writing Chekhov's portrayals of young protagonists exhibit complexity diversity and a broad reach across the writer's cultural and literary landscape dealing with such themes as the distinctiveness of a child's perspective the relationship between the worlds of children and adults the nature of child development socialization gender differences and sexuality While reconstructing a particular literary model of childhood this book brings to light a body of discourse on children childhood development and education prominent in Russia in the late nineteenth century Chekhov's Children accords this topic the significance it deserves by placing Chekhov's model of childhood within the broad context of his time and reassessing established notions about the child's place in the author's oeuvre
