Gill,2010-01-13 Technology seems to be an integral part of modern living Urologists have over the years embraced new technological advances for patient benefit On some occasions however the initial enthusiasm in something new has failed to endure rigorous scientific scrutiny Thus while being technological leaders we urologists know better than most other surgical specialties that what is new is not necessarily good This textbook is aimed at urologists and surgeons at all levels and has contributions from international experts The topics vary from robotics to lasers to single port laparoscopy The comprehensive chapters should be of equal interest to uro-oncologists and those involved in treating benign urological diseases While the contents are meant to bring the reader up to date with technological advances the authors have attempted to balance their enthusiasm with basic science translational research and clinical outcomes It will be obvious that some of the subjects mentioned here such as nanotechnology are still evolving and it will be a while before they undergo clinical trials that establish their position in clinical medicine We hope you enjoy reading this book as much as we have enjoyed creating it London UK Prof Prokar Dasgupta Dublin Ireland Prof John Fitzpatrick London UK Prof Roger Kirby CA USA Prof Inderbir S Gill vii Acknowledgements The editors thank all authors for their time and valuable contributions We are also grateful to our developmental editors Joni Fraser and Barbara Lopez Lucio **Hand und Handgelenk** Frank Unglaub,2019-09-25 Die

Beschrieben werden häufige aber erfahrungsgemäß schwierige Probleme und Techniken so dass der erfahrene aber im jeweiligen Gebiet nicht hochspezialisierte Operateur den jeweiligen Eingriff mit höherer Sicherheit ausführen vermag. Alle Beschreibungen lassen sich direkt in die Praxis umsetzen. Die Operationsverfahren werden step by step dargestellt und mit zahlreichen Fotos und brillanten Grafiken visualisiert. Initiiert und begleitet wird die Reihe durch Prof. Dr. med. D. Kohn und Prof. Dr. med. T. Pohlemann. Der vorliegende 3. Band Hand und Handgelenk wurde von Prof. Dr. med. Frank Unglaub herausgegeben.
