Graesser, 2013-11-11 When

individuals read or listen to prose they try to understand what it means This is quite obvious However the cognitive mechanisms that participate in prose comprehension are far from obvious Even simple stories involve complexities that have stymied many cognitive scientists Why is prose comprehension so difficult to study Perhaps because comprehension is guided by so many domains of knowledge Perhaps because some critical mysteries of prose comprehension reside between the lines in the mind of the comprehender Ten years ago very few psychologists were willing to dig beyond the surface of explicit code in their studies of discourse processing Tacit knowledge world knowledge inferences and expectations were slippery notions that experimental psychologists managed to circumvent rather than understand In many scientific circles it was taboo to investigate mechanisms and phenomena that are not directly governed by the physical stimulus Fortunately times have changed Cognitive scientists are now vigorously exploring the puzzles of comprehension that lie beyond the word The study of discourse processing is currently growing at a frenetic pace

Teaching Beginning Reading and Writing with the Picture Word Inductive Model Emily Calhoun, 1999 In this practical guide to teaching beginning language learners of all ages Calhoun encourages us to begin where the learners begin with their developed listening and speaking vocabularies and other accumulated knowledge about the world Engage students in shaking words out of a picture words from their speaking vocabularies to begin the process of building their reading and writing skills Use the picture word inductive model PWIM to teach several skills simultaneously beginning with the mechanics of forming letters to hearing and identifying the phonetic components of language to classifying words and sentences through forming paragraphs and stories based on observation Built into the PWIM is the structure required to assess the needs and understandings of your students immediately adjust the lesson in response and to use explicit instruction and inductive activities Individual small group and large group activities are inherent to the model and flow naturally as the teacher arranges instruction according to the 10 steps of the PWIM Students and teachers move through the model and work on developing skills and abilities in reading writing listening and comprehension as tools for thinking learning and sharing ideas
