Executive summary

This report provides a summary of health and safety across the organisation in the areas of:

- **Health and Safety Performance.** The data needed to provide a full understanding of the health and safety performance of the organisation is not currently available. Two streams of work are underway to capture the required data. A limited snapshot of Lost Time Injuries, Total Injuries, and Near Hits is provided for Staff, Capital Works Projects, and Rail Operations.
- **Health and Safety Risk Management.** The existing health and safety risk assessment does not accurately reflect the actual organisational risk. From this, the critical risks will be identified and a review undertaken as to the adequacy of existing mitigation measures.
- **Health and Safety Incidents.** Three significant incidents were reported in March, two involving violence against Parking Enforcement Officers. An update on the December incident that occurred on the AMETI site identified the lack of a site health and safety induction and non-complying fencing as key factors in the incident.
- **Health and Safety Strategy Work Programme.** There are eight streams of work under the Health and Safety Strategy. Generally, there has been good progress on the Work Programme.
- **Health and Safety Matter Arising from the last Board meeting.** A draft Board Health and Safety Charter is provided for comment. The draft Charter is based on local and international examples.
