Military Ethics Education and the Holocaust Michael Dobkowski, George R. Wilkes, 2025-11-18 This book examines the nature of military ethics education after the Holocaust using a range of national case studies The volume examines educational opportunities offered by a range of militaries including the USA Australia Lithuania Austria and Israel and addresses substantive and contextual problems for ethical reflection on the basis of Holocaust history The first half of the work indicates how the particular educational gains sought from courses on the Holocaust and military ethics provide grounds for wider discussions of the normative consequences of engagement with the Holocaust The chapters in the second half of the book turn to a variety of historical contexts before and during the Holocaust which raise substantive ethical issues the formation of military professionals treatment of prisoners exercise of responsibilities in the face of institutional pressure the relationship between ethical outcomes and organisational ideology and the values of rescuers and resisters including those organising their resistance in divergent Jewish and Christian communities This volume will be of interest to students of military ethics peace and conflict studies defence studies Holocaust and genocide studies and World War II history **Legal**

Form and the End of Law Cosmin Cernel, Gian-Giacomo Fusco, Przemyslaw Tacik, 2024-10-14 Following the 100th anniversary of Pashukanis General Theory of Law and Marxism 1924 this volume aims to breathe new life into the main category of Pashukanian legacy the concept of legal form This book offers new deeper and more general ways in which the concept of legal form can be used to push forward Marxist post Marxist or hauntingly Marxist legal theory Accordingly this book does not pledge allegiance to reconstructing and reconsidering the official interpretative legacy of the legal form Instead it mobilises the revolutionary conceptual potentialities that this term contains When investigated thoroughly and in many dimensions the legal form becomes a privileged vantage point not only into the greatest law related riddles of Marxism such as the relation between economy and the state or withering away of statal apparatuses but the whole of modernity as the epoch determined by if not overlapping with capitalism This book aims to think with the legal form rather than explain this concept In so doing it offers a panoply of theoretical perspectives that address legal subjectivity abstraction autonomy of the law and last but not least withering away of the law This contemporary interrogation of the relevance of the concept of legal form will be of considerable interest to scholars and students of legal and political theory **Military Review**, 2017

Volatility and friction in the age of disintermediation Tim Sweijts, Stephan De Spiegeleire, Sijbren de Jong, Willem Oosterveld, Hannes Roos, Frank Bekkers, Artur Usanov, Robert de Rave, Karlijn Jans, 2017-02-20 Events unfolded once again at a swirling pace in 2016 Terrorists hit Europe's capital in March The British population voted for Brexit in June Turkish armed forces failed to topple Erdoğan in July A resurgent Russia flexed its military muscles again in the Middle East and actively interfered in American elections in which the American population elected Trump in November We are worried but certainly not surprised by the volatility of contemporary international relations In previous editions of our contribution to the

Dutch government's Strategic Monitor we already observed a surge in assertive behavior noted a dangerous uptick in crises and warned for the contagiousness of political violence The current volatility is not a coincidence but rather the result of fundamental disturbances of the global order that are greatly amplified by rapid technological developments Most mainstream explanations of recent turbulence focus on power transitions the decline of the West and the rise of the rest the concomitant return to more aggressive forms of power politics and a backlash against globalization What strikes us is that many of the explanations ignore what we consider one of the most striking mega trends that is reshaping the dynamics of power the ongoing process of disintermediation The StratMon 2016 2017 analyzes global trends in confrontation cooperation and conflict based on different datasets This year the report also contains case studies on Turkey Moldova and The rise and fall of ISIS Chapters analyzing the many faces of political violence and the other side of the security coin are also included

Russian 'Hybrid Warfare' and the Annexation of Crimea Kent DeBenedictis, 2021-11-04 Western academics politicians and military leaders alike have labelled Russia's actions in Crimea and its follow on operations in Eastern Ukraine as a new form of Hybrid Warfare In this book Kent DeBenedictis argues that despite these claims the 2014 Crimean operation is more accurately to be seen as the Russian Federation's modern application of historic Soviet political warfare practices the overt and covert informational political and military tools used to influence the actions of foreign governments and foreign populations DeBenedictis links the use of Soviet practices such as the use of propaganda disinformation front organizations and forged political processes in the Crimea in 2014 to the Warsaw Pact invasion of Czechoslovakia in 1968 the Prague Spring and the earliest stages of the invasion of Afghanistan in 1979 Through an in depth case study analysis of these conflicts featuring original interviews government documents and Russian and Ukrainian sources this book demonstrates that the operation which inspired discussions about Russian Hybrid Warfare is in fact the modern adaptation of Soviet political warfare tools and not the invention of a new type of warfare Federal Register, 2013-12 Netherlands Annual Review of Military Studies 2017 Paul A.L. Ducheine, Frans P.B. Osinga, 2017-07-14 With a foreword by Major General Nico Geerts Commander Netherlands Defence Academy Breda The Netherlands International conflict resolution increasingly involves the use of non military power and non kinetic capabilities alongside military capabilities in the face of hybrid threats In this book counter measures to those threats are addressed by academics with both practical and theoretical experience and knowledge providing strategic and operational insights into non kinetic conflict resolution and on the use of power to influence affect deter or coerce states and non state actors This volume in the NL ARMS series deals with the non kinetic capabilities to address international crises and conflicts and as always views matters from a global perspective Included are chapters on the promise practice and challenges of non kinetic instruments of power the instrumentality of soft power information as a power instrument and manoeuvring in the information environment Russia's use of deception and misinformation in conflict applying counter marketing techniques to fight ISIL using statistics to profile terrorists and

employing tools such as Actor and Audience Analysis Such diverse subjects as lawfare the Law of Armed Conflict rules for non kinetic cyber attacks navigation warfare GPS spoofing maritime interception operations and finally as a prerequisite innovative ways for intelligence collection in UN Peacekeeping in Mali come up for discussion The book will provide both professionals such as foreign policy makers and those active in the military services academics at a master level and those with an interest in military law and the law of armed conflict with useful and up to date insights into the wide range of subjects that are contained within it Paul A L Ducheine and Frans P B Osinga are General Officers and full professors at the Faculty of Military Sciences of the Netherlands Defence Academy in Breda The Netherlands Specific to this volume in the Series Written by academics with both practical and theoretical experience Addresses counter measures to hybrid crises Offers both strategic and operational insights to non kinetic conflict resolution *Stability (ADP 3-07)* Headquarters Department of the Army, 2019-09-27 Army Doctrine Publication ADP 3 07 Stability is the Army s doctrine for stability operations tasks ADP 3 07 presents overarching doctrinal guidance and direction for conducting stability operations in operations It establishes the foundation for developing other fundamentals and tactics techniques and procedures detailed in subordinate doctrinal publications See the introductory figure on page iv for an illustrated overview of ADP 3 07 ADP 3 07 provides the doctrine for the conduct of stability operations just as ADP 3 90 Offense and Defense provides doctrine for the conduct of offensive and defensive operations The doctrine in ADP 3 07 provides a foundation for the Army s operational concept of unified land operations This publication also forms the foundation for training and Army education curricula on stability operations tasks in operations *Stalemate* Andrew Ong, 2023-06-15 Stalemate reveals the history and contemporary politics of the United Wa State Army UWSA Asia s strongest insurgent army on Myanmar s border with China This ethnographic tale recounts how a highland group often dismissed as rebels or narcotraffickers maintains a relational autonomy between two powerful lowland states The Wa polity engages rather than evades these surrounding states yet struggles to fit into their registers of sovereignty and statehood Andrew Ong examines political culture among Wa elites and people UWSA external relations and capital flows with neighboring China showing how Wa autonomy is enacted through careful navigation of complex borderland geopolitics and the shadow economy He analyzes the seeming stalemate between the Myanmar state and the UWSA as one of tactical dissonance adopting simultaneous postures of authority and subordination and creating disruptions and connections Stalemate illuminates how seemingly ambiguous and disorderly practices of political signaling economic regulation and military governance produce relative stability challenging our assumptions about state like processes at the peripheries Russian "Hybrid Warfare" Ofer Fridman, 2018-08-01 During the last decade Hybrid Warfare has become a novel yet controversial term in academic political and professional military lexicons intended to suggest some sort of mix between different military and non military means and methods of confrontation Enthusiastic discussion of the notion has been undermined by conceptual vagueness and political manipulation particularly

since the onset of the Ukrainian Crisis in early 2014 as ideas about Hybrid Warfare engulf Russia and the West especially in the media Western defense and political specialists analyzing Russian responses to the crisis have been quick to confirm that Hybrid Warfare is the Kremlin's main strategy in the twenty first century But many respected Russian strategists and political observers contend that it is the West that has been waging Hybrid War Gibrinaya Voyna since the end of the Cold War In this highly topical book Ofer Fridman offers a clear delineation of the conceptual debates about Hybrid Warfare What leads Russian experts to say that the West is conducting a Gibrinaya Voyna against Russia and what do they mean by it Why do Western observers claim that the Kremlin engages in Hybrid Warfare And beyond terminology is this something genuinely new
