Myths of the Bible Gary Greenberg, 2002-09-01 In his startling book Gary Greenberg exposes the reality behind the greatest story ever told Learn about the Egyptian myths and ancient folklore that survive in one of history s most sacred texts and discover how King David s bodyguard not David killed Goliath Noah s Ark did not land on Mount Ararat Samson did not pull down a Philistine temple There are at least two versions of the Ten Commandments The walls of Jericho were destroyed 300 years before Joshua arrived there Sodom and Gomorrah were mythical cities that never existed The story of Esther had

nothing to do with the Jews of Persia And much much more 101 Myths of the Bible provides a new dimension of biblical studies for believers historians and anyone who has ever wondered about the facts behind the legends By looking deeper into history Greenberg shows that the true story makes the Bible more interesting than ever imagined The Myth of the Jewish Race Alain F. Corcos,2005 As a youth the author who had two Jewish grandparents was defined as a Jew by Vichy France his parents however refused to register the family as Jews In March 1944 Corcos and his brother fled to Spain and joined the Allied Forces in North Africa States that antisemites consider Jewishness to be inherited and to embody inferior evil traits This view is based on two false biological premises that there are pure races of humans and that some races are superior to others Rejects these premises by considering modern biology and Jewish history The latter indicates that the Jews cannot be a race due to their lack of sexual isolation diversity among Jews is a result of both intermarriage and proselytism Sees the Spanish limpieza de sangre statutes and the Inquisition as precursors of Nazi racism Observes that sometimes Jews have joined antisemites in accepting biological determinism Intermarriage in countries such as China India and the USA has led to considerable biological diversity among Jews and to the reduction of diversity between Jews and non Jews if such diversity existed at all Stresses that if antisemites have worried about contamination of their race by the Jews they have already missed the boat since Jews have mixed with non Jews for many centuries The African Origin of Civilization Cheikh Anta Diop, Mercer Cook,2012-09-01 Now in its 30th printing this classic presents historical archaeological and anthropological evidence to support the theory that ancient Egypt was a black civilization **Biblical Narrative and Palestine's History** Thomas L. Marcia J. Watson-Vandiver, Greg Wiggan, 2021 Situating the African American learning experience within the stream of historic enslavement and hundreds of years of institutionalized racism this timely book introduces antiracist foundations for teaching in the 21st century The authors take a holistic approach that uses Afrocentricity to identify and address critical omissions and distortions in school curricula Drawing on empirical findings from a high performing 100% African American school they identify what teachers and students recognize as successful features of the schools approach including a unique learning environment support systems spiritual affirmations evidences of Black education a reframing of Afrocentricity and education that promotes positive Black identity This much needed book demonstrates the healing power of education provides evidence of social emotional and psychological transformation within the learning experience and frames education as a tool for liberation Book Features Offers a clear chronological analysis of Black education in the United States and across the Diaspora Includes the perceptions and experiences of students and teachers at a successful Afrocentric school Provides the tools needed to teach multicultural histories in an antiracist way Examines the benefits of Afrocentric curricula and the role of corrective history in promoting positive Black identity Explores the intersections of precolonial history student achievement and Afrocentric education **The Age of Promiscuity** Doru Pop, 2018-11-15 This book presents an original and engaging look at contemporary popular culture opening with the provocative idea that this is a day and age of complete exhaustion of ideas images stories and myths Questioning the effects of content recycling in cinema and other media the author further elaborates on the repurposing of cultural junk the reassembling of narratives and myths The thought provoking hypothesis proposed in this research is that we have entered an age of cultural promiscuity By analyzing the mutations of myth making practices and connecting them with larger cultural manifestations the author explains these transformations as integral to the development of a myth illogical imagination Cinematic and mythological representations in mainstream Hollywood films have reached a point of amalgamation with no return which marks the beginning of a fourth age of representations where signs and meanings are manifested in illogical permutations This is more explicit in films that commingle aliens cowboys undead American presidents and zombie nazis joining together in the same narrative ghosts werewolves and vampires aggregating disjointed storylines and historical fake facts all coalesced in an orgy of empty burlesque and infantile masquerades This interdisciplinary research combines cultural studies film criticism art and myth interpretations bringing into the debate multiple concepts from related fields such as critical theory and media criticism The book also opens up to innovative approaches from a wide array of academic disciplines offering researchers students and those fascinated by the transformations happening in contemporary cinema an interpretative tool based on a revised dialectic

approach The conclusion is that we are now victims of a zombie semiotics Meaning making in contemporary culture politics and aesthetics is dominated by a process of incessant desecration of significations specific to the total mishmash of representations analyzed here
