The Mouseproof Kitchen:

The Mouse-Proof Kitchen Saira Shah, 2013 A journey of the heart Shah writes with sensuous passion The New York Times Book Review When Anna a chef by profession discovers she's pregnant she prepares to leave dreary London behind and move to idyllic Provence France with her husband Tobias and her lovable baby to be But she's suddenly forced to reevaluate her dreams when their baby is born less than perfect Little do Anna and Tobias know that the change in plans sparked by Freya's birth is the beginning of an incredible journey of the heart Along the way they discover that there truly is no such thing as a mouse proof kitchen and though life sometimes gets a little messy it's the messy bits that give it meaning The couple and their new daughter end up in a vermin infested farmhouse in a remote town in France far from the mansion in Provence they'd originally imagined Their rickety home is falling down around them the village is involved in a decades old trauma and even the charms of the region's lavender fields and a budding romance between two of their young neighbors can't distract from the fact that Freya's hospital stays are becoming frighteningly frequent Anna must draw on reserves of strength she never knew she had just to keep going from day to day But will it be enough to keep her family together and her daughter safe Told with the most pitch perfect radiant prose New York Times bestselling author Marisa de los Santos The Mouse Proof Kitchen is a moving and thought provoking story about how the best parts of life are often the most complicated
