The New Baby For Tablet Devices:

Media Moms & Digital Dads Yalda T Uhls, 2016-10-04 Is social media ruining our kids How much Internet activity is too much What do FOMO Fear of Missing Out sexting and selfies mean for teens Are you curious about what research says about how media and technology are affecting childhood Supported by academic research focused on technology Media Moms Digital Dads breaks down complex issues in a friendly accessible fashion making it a highly useful and ultimately reassuring read for anyone who worries about the impact that media might be having on young minds Each chapter delves into a different issue related to kids and media so parents can easily find their particular issue of concern Dr Uhls ends each chapter with quick takeaways in the form of tips and guidance for parents Dr Uhls expertise as a former Hollywood film executive and as a current expert on child development and the media gives her a unique and important perspective As a trained scientist she understands the myriad studies conducted by researchers and as a mom of digital teens she knows what actually works and can relate to the reality of being a parent in the 21st century Dr Uhls also describes the primary research she conducted at UCLA including whether extensive screen time impacts non verbal emotional understanding which has been covered in the New York Times Time magazine and on National Public Radio There are few more important issues for parents today than helping children safely navigate the digital world in which we live a world that provides immense opportunity for learning and connecting yet also puts kids in a position to make mistakes and even cause harm Knowing what the facts are and when and how to get involved is perhaps one of the most challenging aspects of modern parenting Media Moms Digital Dads offers parents reassuring and fact based guidance on how best to manage screens and media for their children
