security and divert expenditure previously earmarked for arms purchases to more constructive ends. Instead the arms trade has flourished. Not only conventional arms but also police and surveillance equipment have been provided by Western countries seeking to make a profit from conflict in unstable parts of the world. Foreign debt has remained high, development has been held back and human rights have been systematically abused, all with the connivance of an arms trade prepared to turn a blind eye to the uses to which increasingly sophisticated weaponry is put so long as hefty profits can be reaped. This disturbing book names the players in the arms trade and charts the impact that it has had on war, human rights and development. The financial and trade mechanisms that permit the arms trade to continue are revealed amid sordid tales of bribery and corruption. Gideon Burrows concludes his examination by reviewing the ways in which this trade can be controlled or even abolished.

The No-nonsense Guide to Global Media Peter Steven, 2003. The power and influence of the mass media grows daily, crucially affecting the way all of us see and understand each other. The No Nonsense Guide to Global Media introduces readers to the political economy of the major media: film, television, radio, recording, publishing and the Internet. Peter Steven looks at the ever greater concentration of ownership and at the convergence of technologies and media functions. At the same time he emphasizes the diversity of local media production and media around the world. The media is more than the economics of ownership and the technology of production; he stresses it is also audiences in all their annoying and wonderful diversity.

The No-nonsense Guide to Conflict and Peace Peter Greener, 2006. This invaluable guide is excellent for students, peace groups and activists. With tables, maps, case studies and quotes, it looks at how conflict escalates and ways it can be prevented. It examines the changing types of war, including the War on Terror and ethnic conflict such as in Rwanda, the role of diplomacy and the UN, and what steps ordinary people are taking to rebuild communities. It also offers ideas and inspiration for creating lasting peace.

The No-nonsense Guide to Water Maggie Black, 2004. Water sustains life; without it, humans cannot survive for more than a few days. And yet this precious fluid is becoming increasingly politicized as the debates about control and ownership of water itself and of the many organizations which govern its use gain force. Maggie Black explores the many roles water plays in human life and as the defense of water rights looks set to become an explosive issue, provides a clear overview on the vital issues of distribution, technology, irrigation, land use and commodification.

The No-nonsense Guide to World Poverty Jeremy Seabrook, 2003. At the turn of the new millennium, the United Nations determined that world poverty would be halved by 2015. International agencies are all committed to poverty abatement. The International Monetary Fund and the World Bank have renamed their structural adjustment policies poverty reduction strategies. But can this work? No, argues Jeremy Seabrook, not if we fail to understand the meaning of poverty. Drawing on testimonies from around the world as well as on the hard facts, he challenges the assumption that wealth

overcomes poverty and demonstrates that the opposite of poor is not rich but self reliant Appealing passionately for a shared sense of sufficiency he gives verbal snapshots of people s lives to show how poverty shifts changes and endures in response to the growth of wealth

The No-Nonsense Guide to Fair Trade David Ransom,2006-10-01 Meeting the people who grow our bananas and cocoa and make our clothes this No Nonsense Guide to Fair Trade tells the human story behind what we consume Examining the global contest between free and fair trade David Ransom argues that the key question is not whether trade should be regulated or deregulated but whether it is to be the master or servant of the people And as fair trade products are being turned into brands by large corporations a new contest opens it is no longer just a question of fair versus free but what kind of fair trade
