Coverage **Gender and the Abjection of Blackness** Sabine Broeck, 2018-05-23 An anti racist critique of gender studies as a field In *Gender and the Abjection of Blackness* Sabine Broeck argues that gender studies as a mostly white field has taken insufficient account of Black contributions and that more than being an ethnocentric limitation or blind spot this has represented a structural anti Blackness in the field Engaging with the work of Black feminist authors Sylvia Wynter Hortense Spillers and Saidiya Hartman Broeck critiques a selection of canonical white gender studies texts to make this case The book discusses this problem at the core of gender theory as a practice which Broeck terms enslavism the ongoing abjection of Black life which Hartman has called the afterlife of slavery This has become manifest in the repetitive employment of the woman as slave metaphor so central to gender theory as well as in recent theoretical mutations of these anti Black politics of analogy It is the structural separation of Blackness from gender that has functioned over and over again as the scaffold enabling white women's struggles for successful recognition of equality and subjectivity in the human world as we know it This book challenges white readers to rethink their own untroubled identification with gender theory and it provides all readers with a white feminist theorist's sophisticated theoretical and self critical scholarly account of her own reckoning with and learning in dialogue from Black feminism's critique Broeck draws on a wide range of experience to provide a frame for rethinking gender as category that can work towards something like Black freedom Most importantly Black theoretical insights in this work move beyond intervention to offer a whole new way of being and the author grapples with the new conceptual terrain she is now occupying Rinaldo Walcott author of *Queer Returns Essays on Multiculturalism Diaspora and Black Studies*

The Politics of Pain: Postwar England and the Rise of Nationalism Fintan O'Toole,2019-11-05 I read The Politics of Pain Postwar England and the Rise of Nationalism by Fintan O Toole and wished I d written it Zadie Smith Wall Street Journal From one of the most perceptive observers of the English today comes a brilliantly insightful mordantly funny account of their seemingly irrational embrace of nationalism England s recent lurch to the right appears to be but one example of the nationalist wave sweeping across the world yet as acclaimed Irish critic Fintan O Toole suggests in The Politics of Pain it is in reality a phenomenon rooted in World War II We must look not to the vagaries of the European Union but instead far back to the end of the British empire if we hope to understand our most fraternal ally and the royal mess in which the British now find themselves O Toole depicts a roiling nation that almost ludicrously dreams of a German invasion if only to get the blood going and that erupts in faux outrage over regulations on prawn flavored crisps A sympathetic yet unsparing observer O Toole asks How did a great nation bring itself to the point of such willful self harm His answer represents one of the most profound portraits of the English since Sarah Lyall s New York Times bestseller The Anglo Files
