## **The Missing Teacher A Memoir:**

*The Missing Teacher* Lani V. Cox, 2015-01-16 You've probably heard of Waldorf but most people don't know what it is. Based on Rudolf Steiner's spiritual philosophy and the idea of giving children a holistic education, it's one of the fastest growing alternative educational systems in the world. I entered the fairy tale world of Waldorf with the best intentions, completed my training and began teaching at a fledgling school. It was not the positive and nurturing environment I'd expected and two years later when it became apparent I didn't fit in, I was fired. I was devastated and lost my faith. In the following years, I went looking for myself and found clues in the most unlikely places: between root beer and burgers, a shoebox and a book on tape. *The Missing Teacher* explores the personality of education, looks into one of the most controversial education systems, and is a story about the education of self.

*A Teacher's Memoirs* Ang-Lee Lai Kuin, 2015-12-19 Hwa Chong Junior College, established in 1974, is one of the top junior colleges in Singapore. Its bilingual English and Chinese and bicultural junior college programme prepares enrolled full-time 16 to 18-year-old students for the Singapore Cambridge GCE A-level examinations for entry into the top local and prestigious foreign universities such as the Oxbridge universities in the UK and the Ivy League universities in the US. The College attracts the best local students after their GCE O-level examinations, top-tier foreign students, the Ministry of Education's ASEAN Scholars, as well as other sponsored scholarship students from China and India. This book of memoirs covering my years at Hwa Chong as a pioneer teacher from its very first year shares with all my Hwa Chong colleagues, students, Councillors, and students past, current, and future the history and traditions of the College whose deep-rooted ethos and spirit help it to consistently deliver many top students and scholars into the best local and most prestigious universities overseas. These memoirs, written on the occasion of the College's 40th Anniversary, also record and share the travails and distressing times of the College as it was forced to spend several years on the move in temporary premises. The memoirs also share the triumphs of the College's students and student Councillors as they excel not only in their studies but also in various Co-Curricular Activities and in leadership appointments while enjoying their College life.

*Memoirs of a Substitute Teacher* Paul Kritzeck, 2014-01-14 Over the course of being employed as a substitute teacher, the author compiled a collection of classroom escapades and antics and bound them into his memoir. Inside, the reader will come across a well-balanced book consisting of humorous episodes along with a peppering of frustrating scenarios that emerged on any given day. One occurrence was when two kids tried to crush a trapped classmate between the wall and the piano they used as a wedge. Or when two brave nerds targeted a jock during dodgeball, only the letterman wound up taking both out in the span of two seconds. Also, the reaction the author received from a seventh-grade class when he introduced them to his collection of Garbage Pail Kids collector cards.

**Transforming Teacher Preparation Through Identity, Development, and Effective Technologies**

Sargent, Denise LaVoie, Murphy, Kristin M., 2024-08-09. In the landscape of global education, there is a dire shortage of teachers exacerbated by declining enrollment rates and a mass exodus of educators, particularly in urban settings. UNESCO's revelation that millions of teachers are needed by 2030 underscores the critical gaps in our ability to provide quality education. As the education sector grapples with these challenges, *Transforming Teacher Preparation Through Identity, Development, and Effective Technologies* offers valuable solutions. This compilation responds to the pressing need for a paradigm shift in teacher preparation, offering insights, recommendations, and diverse perspectives from experts worldwide to address the current crisis and shape the future of education. Teacher shortages and diminishing enrollment rates, coupled with the departure of educators, pose a significant threat to the quality of education globally. Urban areas, in particular, witness a disproportionate exodus of educators, creating disparities that impact the most vulnerable students. The COVID-19 pandemic has further emphasized the need for innovative, technology-driven solutions in teacher preparation. As schools deal with these issues, the imperative is to not only reflect on the current state of teacher preparation but also to set forth recommendations that will transform the field, ensuring a robust and resilient education system for the years to come.
