The Unnaming of Aliass Karin Bolender, 2020 The Unnaming of Aliass performs a paradoxical quest for wildly untold stories in the company of one special donkey companion a femammal of the species *Equus asinus* and significantly a registered American Spotted Ass Beast of burden that she is this inscrutable companion helped carry a ridiculous load of human longings and quandaries into a maze of hot harrowing miles across the US South from Mississippi to Virginia in the summer of 2002 all the while carrying her own onerous and unreckoned burdens and histories Over two decades the original journey evolved from the cracking open of a quasi Western novel that never was by an implosive pun into an ongoing philosophical and assthetic adventure a hybrid roadside and barnyard based living art

practice wherein Aliass un names something much harder to grasp than the body of a lovely little ass protagonist setting and traditional Western narratives turn inside out around this name that ain t Through a deeply dug in questioning of its own authorial assumptions The Unnaming of Aliass makes space for untold autobiographies and bright dusty lacunae tracing ineffable tales through the tangled shapes and shadows that interweave in any environment **Shadowlands: Expanding Being-becoming beyond Liminality, Crossroads and Borderlands** Remi Calleja,2020-05-19 This book aims to expand on the notion of being becoming and being becoming that manifests across the literature of liminality crossroads and borderlands Looking to overcome the limitations of these grounding concepts the metaphor of the shadowlands is proposed Moving away from dualities and binaries challenging the spatial metaphors which imply clear and defined boundaries and spring from an objective construction of reality and coping with the idea of incompleteness unfinishedness are the challenges of the shadowlands Through the prism of this newly conceptualised analytical and epistemological tool the authors intend to grasp a fresh understanding of the processes of being becoming and being becoming in both their singular and multiple manifestations As an epistemological concept the shadowlands imply that anthropologists must not only identify these uncanny spaces of junction in their research but also shadowlands in the ethnographic papers that they produce In addition to a better understanding of the continuous fabrication of temporalities and being becoming the concept puts into perspective the discipline of anthropology itself Throughout the chapters the different authors permit to grasp the various applications of the shadowlands allowing to project the concept in particular contexts and through specific angles of analysis

Ovid's Metamorphoses and the Environmental Imagination Giulia Sissa,Francesca Martelli,2023-07-27 This book positions Ovid s Metamorphoses as a foundational text in the western history of environmental thought The poem is about new bodies Stones springs plants and animals materialize out of human origins to create a world of hybrid objects which retain varying degrees of human subjectivity while taking on new physical form In bending the boundaries of known categories of being these hybrid entities reveal both the porousness of human and other agencies as well as the dangers released by their fusion Metamorphosis unsettles the category of the human within the complex ecologies that make up the world as we know it Drawing on a range of modern environmental theorists and approaches the contributors to this volume trace how the Metamorphoses models the relationship between humans and other life forms in ways that resonate with the preoccupations of contemporary eco criticism They make the case for seeing the worldview depicted in Ovid s poem as an exemplar of the premodern ecological mindset that contemporary environmental thought seeks to approximate They also highlight critical moments in the history of the poem s ecological reception including reflections by a contemporary poet as well as studies of Medieval and Renaissance responses to Ovid **Arrivals and Departures** Otto Latva, Heta Lähdesmäki, Kirsi Sonck-Rautio, Harri Uusitalo,2024-05-13 [Kierkegaardian Essays](#) Clare Carlisle,Steven Shakespeare,2022-04-19 S ren Kierkegaard argued that the most essential truths come to light by asking How This innovative collection of essays by

leading scholars focuses on this questioning How asking how we should relate to ourselves to others and to God how we should be in the world how we can become human The result is a searching original colloquium on what it means to be Kierkegaardian in the 21st century The adjective Kierkegaardian names many possibilities ways of philosophizing choosing loving looking listening reading writing teaching making art praying going to church or not going to church How gestures to subjectivity one of Kierkegaard's most fundamental philosophical categories while What signals an objectifying line of thought The authors of these essays suggest that the crucial Kierkegaardian question is not what we are and ought to do but how we can remain true to the finitude passivity and ambiguity of human existence While this Kierkegaardian how is often acknowledged by scholars it is rarely thematized directly Attending to it elicits new kinds of argument and reflection Kierkegaardian Essays proposes a fresh approach to Kierkegaard and is essential reading for experts and students alike

Gkiolmas, Constantine D. Skordoulis, 2020-11-03 This volume discusses theory philosophy praxis and methods in Environmental and Ecological education and considers the junction with the main visions and issues of Critical Pedagogy The volume and its separate chapters address four axes which can also be seen as the guidelines of the content as well as the central objectives of the book The first axis concerns the missing theoretical and practical pieces at this point in time The volume considers the issues that are not included in contemporary Environmental Education and thus deprive it from critical orientations This implies that in Environmental Education very little discussion exists about the political economic racial gender and class issues that in most cases govern the actions of leaders and stake holders The second axis concerns what has

been done so far and in what directions This involves descriptions of theoretical approaches or actual applied methodologies in the classroom such as curricula or syllabus used or the kind of actions certain educators have taken to infuse the issues of justice and critical reflection within the Environmental Education teaching agenda The third axis examines proposals It looks at ways to enrich domains of Environmental Education with the argumentations of Critical Pedagogy The fourth axis concerns the way in which proposals can be effectuated This part contains specific methodologies and teaching sequences depicting ways of including major aspects of Critical Pedagogy and Critical Education in Environmental Education Examples are Non anthropocentric ecological approaches in the classroom political activism in the Curricula mixture of field activities and political activities

The Virus Touch Bishnupriya Ghosh,2023-03-06 In *The Virus Touch* Bishnupriya Ghosh argues that media are central to understanding emergent relations between viruses humans and nonhuman life Writing in the shadow of the HIV AIDS and COVID 19 global pandemics Ghosh theorizes epidemic media to show how epidemics are mediated in images numbers and movements through the processes of reading test results and tracking infection and mortality rates Scientific artistic and activist epidemic media that make multispecies relations sensible and manageable eschew anthropocentric survival strategies and instead recast global public health crises as biological social and ecological catastrophes pushing us toward a multispecies politics of health Ghosh trains her analytic gaze on these mediations as expressed in the collection and analysis of blood samples as a form of viral media the geospatialization of data that track viral hosts like wild primates and the use of multisensory images to trace fluctuations in viral mutations Studying how epidemic media inscribe store and transmit multispecies relations attunes us to the anthropogenic drivers of pathogenicity like deforestation or illegal wildlife trading and the vulnerabilities accruing from diseases that arise from socioeconomic inequities and biopolitical neglect
