The Non-Religion of the Future M. Guyau, 2020-08-03 Reproduction of the original The Non Religion of the Future by M Guyau **The Critical Study of Non-Religion** Christopher R. Cotter, 2020-07-09 This book acts as a bridge between the critical study of religion and empirical studies of religion in the real world Chris Cotter presents a concise and up to date critical survey of research on non religion in the UK and beyond before presenting the results of extensive research in Edinburgh s Southside which blurs the boundary between religion and non religion In doing so Cotter demonstrates that these are dynamic subject positions and phenomena can occupy both at the same time or neither depending on who is doing the positioning and what issues are at stake This book details an approach that avoids constructing religion as in some way unique whilst also fully incorporating non religious subject positions into religious studies It provides a rich engagement with a wide variety of theoretical material rooted in empirical data which will be essential reading for those interested in critical sociological and anthropological study of the contemporary non religious landscape **The Annual American Catalogue**

Captive Gods Kwame Anthony Appiah, 2025-10-07 Philosopher Kwame Anthony Appiah explores how early social scientists developed our modern understandings of society through their theories of religion The foundations of modern social science were built on the study of religion the acclaimed thinker Kwame Anthony Appiah argues Delving into the intellectual currents of the nineteenth and early twentieth centuries he investigates how formative thinkers notably Edward Burnett Tylor mile Durkheim Georg Simmel and Max Weber grappled with the concepts of society and religion as interdependent categories Appiah shows how their efforts to define religion or evade the task mark the power and limitations of social thought in ways that persist among theorists today Religion was not merely an object of study but a framework through which early social scientists established sociology as a discipline Appiah also examines more recent work in both interpretive sociology and evolutionary and cognitive psychology about the mechanisms through which communities form beliefs and values while underscoring the enduring significance of these earlier debates for contemporary social thought Throughout he intertwines storytelling historical analysis and philosophical reflection to show how our ideas about society

and culture have been and continue to be forged in dialogue with religious questions
