John Interpretation David Kwak, 2023-12-01 In the Bible the age before Jesus Christ came to the world have been called the age of the Old Testament and the age after Jesus Christ came to the world have been called the age of the New Testament The Old Testament as the Law means that God gave the Scriptures through the angels as the messenger of God to the Prophets in order to make the Israelites serve to God These scriptures are the first covenant of God thus the Old Testament is called the first covenant as well By the way the Israelites as the dependants of Abraham symbolized the chosen people of God who God had predestined as his people before God created the heavens and the earth Thus the Israelites were God s people in the age of the Old Testament and the chosen people of God have been God s people in the age of the New Testament In this way the Old Testament means the first covenant as the Law that God gave to make the Israelites keep it by their mind of the flesh for their living with the flesh in the world Thus the Law became the regulation of their living with the flesh By the way their mind of the flesh have been tempted by the messenger of the devil just as the serpent in the Eden Garden tempted the mind of the flesh of Eve as the wife of the Adam The Israelites as the human being have to live with their mind of the flesh without their spirit that are able to follow God who is spirit Because the human being have been born with the dead spirit as the guilty conscience without their spirit as good conscience due to Adam s sin that followed the temptation of the serpent instead of the command of God in the Eden Garden This is called as the original sin of human being And in the age of the New Testament as the age of the new covenant or the age of the Salvation Jesus who came to the world and the apostles preached

the world of truth of God as the gospel of Christ to the chosen people of God in order to save them through their spirit born again from their dead spirit due to Adam's sin See the messages of John 3:3-5 The word of truth of God as the gospel means the New Covenant as the law of the Spirit but not the first covenant as the Law And the new covenant as the law of the Spirit become the regulation of the spiritual living for God's people It means that the Scriptures in the New Testament become the word of truth of God as the gospel of Christ for the salvation of the chosen people of God So that the gospel has the spiritual meaning in the messages instead of the literal meaning of the messages in order to save God's people Because the one who are born again from the dead spirit due to Adam's sin must be aware spiritually of the gospel in order to follow the will of God who is spirit for the spiritual living by his spiritual new life as his new self instead of the living of the flesh by his old self that lived with his mind of the flesh As the mentioned above now we have to be aware spiritually of the gospel as the new covenant becoming the New Testament in order to be saved from our original sin due to Adam's sin in the Eden Garden Therefore through this books with the Spiritual Interpretation you as the chosen people of God are able to be aware spiritually of the world of truth of God as the new covenant for your salvation When you read this books the spiritual messages of God that are living with the power of God will lead you to be born again with good conscience from the dead spirit due to Adam's sin as the original sin

According to European legislation extra virgin is the top grade of olive oils It has a superior level of health properties and flavour compared to virgin and refined olive oils Mediterranean countries still produce more than 85% of olive oil globally but the constant increase of demand for extra virgin olive oil has led to new cultivation and production in other areas of the world including California Australia China South Africa and South America At the same time olive oil s sensory properties and health benefits are increasingly attracting the attention and interest of nutritionists food processors manufacturers and food services Progress and innovation in olive cultivation harvesting and milling technologies as well as in oil handling storage and selling conditions make it possible to achieve even higher quality levels than those stipulated for extra virgin oils As a consequence a new segment excellent extra virgin olive oils is increasingly attracting the attention of the market and earning consumers preference The Extra Virgin Olive Oil Handbook provides a complete account of olive oil s composition health properties quality and the legal standards surrounding its production The book is divided into convenient sections focusing on extra virgin olive oil as a product the process by which it is made and the process control system through which its quality is assured An appendix presents a series of tables and graphs with useful data including conversion factors and the chemical and physical characteristics of olive oil This book is aimed at people involved in the industrial production as well as in the marketing and use of extra virgin olive oil who are looking for practical information which avoids overly academic language but which is still scientifically and technically sound The main purpose of the handbook is to guide operators involved in the extra virgin olive oil chain in making the most appropriate decisions about product quality and operating conditions in the production and distribution processes To these groups the most important questions are practical ones of why how how often how much will it cost and so on The Extra Virgin Olive Oil Handbook will provide the right answers to these key practical considerations in a simple clear yet precise and up to date way [Science and Digital Technology for Cultural Heritage - Interdisciplinary Approach to Diagnosis, Vulnerability, Risk Assessment and Graphic Information Models](#) Pilar Ortiz Calderón,Francisco Pinto Puerto,Philip Verhagen,Andrés Prieto,2019-11-28
