Education and Its Discontents Mark Moss,2012 *Education and Its Discontents Teaching the Humanities and the Importance of a Liberal Education in the Age of Mass Information* by Mark Moss is an exploration of how the traditional educational environment particularly in the post secondary world is changing as a consequence of the influx of new technology Students come to the classroom or lecture hall expecting to have their habits and tastes gleaned from the online world replicated in an Educational environment Faculty who do not adapt face enormous obstacles and faculty that do adapt run the risk of eroding the integrity of what they have been trained to teach Students now have access to myriad of technologies that instead of supplementing the educational process have actually taken it over Issues that run from plagiarism to the erosion of the humanities are now rampant concerns in the post secondary world Behavior issues YouTube videos cell phones and the incessant clicking of the computer keys are just a few of the technologies altering the educational landscape Moss discusses that it is now not only how we learn but what we continue to teach and how that enormously important legacy is protected *Education and Its Discontents Teaching the Humanities and the Importance of a Liberal Education in the Age of Mass Information* by Mark Moss argues that education has changed and the supremacy of the book and the lecture is now open for debate What has been gained over the last five hundred years is now susceptible to the vagaries of technology which compel us to question their continuing relevance

Independent School Libraries Dorcas Hand,2010-06-11 The first book published about independent school libraries since 1985 this work offers both the independent school library community and the broader school library community a wealth of insights into excellence in library practice *Independent School Libraries Perspectives on Excellence* offers readers insights into best practices in library services for school communities using examples drawn from independent schools of various sizes descriptions and locations across the United States Two overview essays introduce a statistical analysis of independent schools Each of the remaining essays provides perspective on a different aspect of library practice including staffing advocacy assessment technology collaboration programs beyond the curriculum intellectual freedom and privacy budgeting accreditation disaster planning and more Because independent school librarians work across divisions and without a mandate to adhere to state or national standards they have the freedom to explore and refine best practice in a school library setting Fortunately the ideas and methods they have developed many of which are on display here can be applied in any school library

The Dumbest Generation Mark Bauerlein,2008-05-15 This shocking surprisingly entertaining romp into the intellectual nether regions of today s underthirty set reveals the disturbing and ultimately incontrovertible truth cyberculture is turning us into a society of

know nothings The Dumbest Generation is a dire report on the intellectual life of young adults and a timely warning of its impact on American democracy and culture For decades concern has been brewing about the dumbed down popular culture available to young people and the impact it has on their futures But at the dawn of the digital age many thought they saw an answer the internet email blogs and interactive and hyper realistic video games promised to yield a generation of sharper more aware and intellectually sophisticated children The terms information superhighway and knowledge economy entered the lexicon and we assumed that teens would use their knowledge and understanding of technology to set themselves apart as the vanguards of this new digital era That was the promise But the enlightenment didn t happen The technology that was supposed to make young adults more aware diversify their tastes and improve their verbal skills has had the opposite effect According to recent reports from the National Endowment for the Arts most young people in the United States do not read literature visit museums or vote They cannot explain basic scientific methods recount basic American history name their local political representatives or locate Iraq or Israel on a map The Dumbest Generation How the Digital Age Stupefies Young Americans and Jeopardizes Our Future is a startling examination of the intellectual life of young adults and a timely warning of its impact on American culture and democracy Over the last few decades how we view adolescence itself has changed growing from a pitstop on the road to adulthood to its own space in society wholly separate from adult life This change in adolescent culture has gone hand in hand with an insidious infantilization of our culture at large as adolescents continue to disengage from the adult world they have built their own acquiring more spending money steering classrooms and culture towards their own needs and interests and now using the technology once promoted as the greatest hope for their futures to indulge in diversions from MySpace to multiplayer video games 24 7 Can a nation continue to enjoy political and economic predominance if its citizens refuse to grow up Drawing upon exhaustive research personal anecdotes and historical and social analysis The Dumbest Generation presents a portrait of the young American mind at this critical juncture and lays out a compelling vision of how we might address its deficiencies The Dumbest Generation pulls no punches as it reveals the true cost of the digital age and our last chance to fix it

Parenting to a Degree Laura T. Hamilton, 2016-04-29 Helicopter parents the kind that continue to hover even in college are one of the most ridiculed figures of twenty first century parenting criticized for creating entitled young adults who boomerang back home But do involved parents really damage their children and burden universities In this book sociologist Laura T Hamilton illuminates the lives of young women and their families to ask just what role parents play during the crucial college years Hamilton vividly captures the parenting approaches of mothers and fathers from all walks of life from a CFO for a Fortune 500 company to a waitress at a roadside diner As she shows parents are guided by different visions of the ideal college experience built around classed notions of women s work family plans and the ideal age to grow up Some are intensively involved and hold adulthood at bay to cultivate specific traits professional helicopters for instance help develop the skills and credentials that will advance their daughters careers while

pink helicopters emphasize appearance charm and social ties in the hopes that women will secure a wealthy mate In sharp contrast bystander parents whose influence is often limited by economic concerns are relegated to the sidelines of their daughter's lives Finally paramedic parents who can come from a wide range of class backgrounds sit in the middle intervening in emergencies but otherwise valuing self sufficiency above all Analyzing the effects of each of these approaches with clarity and depth Hamilton ultimately argues that successfully navigating many colleges and universities without involved parents is nearly impossible and that schools themselves are increasingly dependent on active parents for a wide array of tasks with intended and unintended consequences Altogether Parenting to a Degree offers an incisive look into the new and sometimes problematic relationship between students parents and universities *Educational Research and Innovation The Nature of Learning Using Research to Inspire Practice* OECD,2010-08-09 This book brings together the lessons of research on both the nature of learning and different educational applications and it summarises these as seven key concluding principles **The Missional Mom** Helen Lee,2011-01-01 Do you see motherhood as a mission and divine calling Today's Christian moms come from a full range of personal and professional contexts whether they are homemakers full time workers in the marketplace or somewhere in between Yet many Christian mothers are living missional lives using their gifts and abilities to further God's kingdom by engaging the world around them They artfully passionately and sometimes messily juggle multiple callings and demonstrate in their modern day contexts how they are emulating the woman of noble character in Proverbs 31 The Missional Mom will affirm Christian mothers who desire to not only to build their homes in a Christ like way but also engage the world with their skills abilities and interests It won't minimize the importance of a woman's role in her home but it will encourage her to not ignore the stirrings God has planted within her to extend her influence **The Geeks Shall Inherit the Earth** Alexandra Robbins,2024-09-24 New York Times Bestseller An excellent overview of the complex social environment of high school often humorous and touching Very highly recommended Library Journal starred review These are the true stories of seven people grappling with the uncertainties of high school social life The Loner who has withdrawn from classmates since they persuaded her to unwittingly join her own hate club The Popular Bitch a cheerleading captain both seduced by and trapped within her clique's perceived prestige The Nerd whose differences cause students to laugh at him and his mother to needle him for not being normal The New Girl determined to stay positive as classmates harass her for her mannerisms and target her because of her race The Gamer an underachiever in danger of not graduating despite his intellect and his yearning to connect with other students The Weird Girl who battles discrimination and gossip politics in school but leads a joyous life outside of it and The Band Geek who is alternately branded too serious and too emo yet annually runs for class president In a smart entertaining reassuring book Alexandra Robbins explains the fascinating psychology and science behind popularity and the outcast experience She reveals that the things that set students apart in high school are the things that help them stand out later in life These intertwining narratives

beautifully demonstrate that the people who are excluded and bullied for their offbeat passions and refusal to conform are often the ones who are embraced and lauded for those very qualities in college and beyond The New York Times The Geeks Shall Inherit the Earth is essential reading not just for students teachers and parents but for all of us because at some point in our lives we've all been on the outside looking in Required reading for anyone who has ever felt left out or misunderstood Schools everywhere would do well to incorporate it into their curriculum Robbins ode to the cafeteria fringe will have you laughing cheering shocked Chicago Sun Times Insightful and timely with an effective list of tips for parents teachers students and schools Publishers Weekly Offers real hope to adolescents the students and their stories are thoroughly engaging not just entertaining but important Kirkus Reviews *Supergirls Speak Out* Liz Funk,2009-03-03 Some girls seem to have it all The top grades The best clothes A great body A cute boyfriend But they may also have Exhaustion Anxiety Eating disorders Crippling insecurity From grammar school girls to working women the pressure to be perfect is spreading like a disease These Supergirls feel the unrelenting need to succeed sometimes at the cost of their own happiness and sanity A recovering Supergirl herself Liz Funk exposes the dangerous consequences that can come from striving for perfection By closely following five girls and interviewing nearly one hundred more she takes us inside the Supergirl psyche explaining the causes of this phenomenon and showing how Supergirls can let their sleek and shiny hair down and find some time to relax and enjoy life With practical advice biting humor and the sensitivity of someone who's been through it all Funk's *Supergirls Speak Out* is the absolutely necessary companion for any girl who thinks 100 percent just isn't enough **The Truth about College Admission** Brennan Barnard,Rick Clark,2023-09-05 A guide for students and families that demystifies the college process **The Anthropology of Childhood** David F. Lancy,2015 Enriched with anecdotes from ethnography and the daily media this revised edition examines family structure reproduction profiles of children's caretakers their treatment at different ages their play work schooling and transition to adulthood The result is a nuanced and credible picture of childhood in different cultures past and present **Are You Stressed Out In School?** Stephanie Sammartino McPherson,2015-07-15 Between standardized tests extra curricular activities pressure from parents and the strain of getting into college school is more stressful than ever Relieve some of that stress by learning techniques to deal with the mounting pressure felt by students every day Education and the Making of a Democratic People John I. Goodlad,Roger Soder,Bonnie McDaniel,2015-11-17 Unfortunately civic values such as equity and justice that constitute the moral grounding of American democracy are losing their place in public affairs The promise of this democracy is inclusive no one is to be left out Yet many people are Education and the Making of a Democratic People regards the challenge of inclusiveness as a fundamental and non negotiable educational agenda America's public schools are a main public forum in which people can learn to preserve and actively protect our democratic process The value of our schools as a democratic forum extends beyond the classroom to parents and other members of local communities By engaging in conversations and actions that support the democratic

purpose of schools local communities can ensure that the United States will become a healthy robust democracy that represents all of its citizens **Like, Whatever** Rebecca R. Kahlenberg, 2008 Sane savvy and practical advice for parents on challenges they face with their teens including sex driving risky behaviors discipline money health athletics faith travel college admissions single and blended families and more A Bigger Prize Margaret Heffernan, 2014-04-08 Co winner of the 2015 Salon London Transmission Prize Get into the best schools Land your next big promotion Dress for success Run faster Play tougher Work harder Keep score And whatever you do make sure you win Competition runs through every aspect of our lives today From the cubicle to the race track in business and love religion and science what matters now is to be the biggest fastest meanest toughest richest The upshot of all these contests As Margaret Heffernan shows in this eye opening book competition regularly backfires producing an explosion of cheating corruption inequality and risk The demolition derby of modern life has damaged our ability to work together But it doesn't have to be this way CEOs scientists engineers investors and inventors around the world are pioneering better ways to create great products build enduring businesses and grow relationships Their secret Generosity Trust Time Theater From the cranberry bogs of Massachusetts to the classrooms of Singapore and Finland from tiny start ups to global engineering firms and beloved American organizations like Ocean Spray Eileen Fisher Gore and Boston Scientific Heffernan discovers ways of living and working that foster creativity spark innovation reinforce our social fabric and feel so much better than winning
