The Middle East In The World Economy 1801914:

Why the Middle East Lagged Behind Kazem Alamdari,2005-03-08 Capitalism was the engine of modern development in the West The land tenure system in the Middle East in contrast to the West was an obstacle to the development of capitalism In the West feudalism resulted in a capitalist mode of production and was driven by private ownership of land In Iran these fundamentals were absent Understanding this some Western developmentalists in an attempt to remove this obstacle rationalized a project of modernization that involved imposing capitalism from the top down Under this project developing countries under the influence of the West were advised to launch land reform programs that would modify the traditional and obsolete land systems The first part of this study explores the roots of this issue in Iran The second part of the book examines the period from 1961 when the land reform program began to 1981 when Iran saw the beginning of the Islamic system

The Middle East in the World Economy, 1800-1914 Roger Owen,1981 Examines the growth and transformation of the Middle East economy during the 19th and early 20th centuries The text looks at how the region s economic structures were fundamentally altered by the growing impact of European trade and finance and by the internal reforms of the rulers of Egypt It also examines in detail the impact of this process on the four central areas of the Middle East The result the author argues was the creation of a fixed pattern of agricultural industrial and financial activity The states formed after the collapse of teh Ottoman Empire found that altering this pattern in their attempts to promote a less dependent form of development was fraught with difficulty and the problems they faced and their different approaches are still highly relevant to the Middle East s economic development today The Middle East in the World Economy. 1880-1914 Roger Owen,1981 *An Economic History of the Middle East and North Africa* Charles
