Here rulers presided over communities with millions of inhabitants; scholars developed advanced mathematical calendars and slaves toiled to raise pyramids so towering that they surpassed even the great structures of the Egyptians. Yet inexplicably the Mayans vanished from their cities and their once mighty civilization faded into obscurity. Even now 500 years after their downfall, archaeologists, scribes and historians are still in pursuit of the truth behind the abrupt demise of the Mayans. This mystery is just one of many that continue to elude the grasp of scientists. Despite the constant advance of modern research, the past remains steeped in myth and mystery with innumerable questions arising from the monuments and people of ancient times.
