

Chapter I:1

An Introduction to Taxation

Discussion Questions

I:1-1 The Supreme Court held the income tax to be unconstitutional in 1895 because the income tax was considered to be a direct tax. At that time, the U.S. Constitution required that an income tax be apportioned among the states in proportion to their populations. This type of tax system would be extremely difficult to administer because different rates of tax would apply to individual taxpayers depending on their states of residence. p. I:1-2.

I:1-2 The pay-as-you-go withholding was needed in 1943 to avoid significant tax collection problems as the tax base broadened from 6% of the population in 1939 to 74% in 1945. Pay-as-you-go permitted the federal government to deduct taxes directly out of an employee's wages. p. I:1-3.

I:1-3 Under a progressive tax rate structure, the tax rate increases as the taxpayer's income increases. Currently, for 2023, tax rates of 10%, 12%, 22%, 24%, 32%, 35% or 37% apply depending upon the taxpayer's filing status and taxable income levels. Under a proportional tax rate or "flat tax" structure, the same tax rate applies to all taxpayers regardless of their income levels. Under a regressive tax rate structure, the tax rate decreases with an increase in income level. The concept of vertical equity holds that taxpayers with higher income levels should pay a higher proportion of tax and that the tax should be borne by those who have the "ability to pay." Thus, Congressman Patrick's opposition to the flat tax is philosophically correct; under a flat tax system, all taxpayers pay taxes at the same rate, regardless of the ability to pay. pp. I:1-4 and I:1-5.

I:1-4 It is possible for the government to raise taxes without raising tax rates. Because there are two components in computing a taxpayer's tax, the tax base and the tax rate, taxes can be raised by increasing either the rate or the base. Thus, even though the Governor proclaimed that tax rates have remained at the same level, adjustments to the tax base, such as the elimination of deductions, result in tax increases which can be as much, or more, as increases in tax rates. p. I:1-4.

I:1-5 The marginal tax rate is of greater significance in measuring the tax effect for Carmen's decision. The marginal tax rate is the percentage that is applied to an incremental amount of taxable income that is added to or subtracted from the tax base. Through the marginal tax rate, the taxpayer may measure the tax effect of the charitable contribution to her church. If her marginal tax rate is 24%, she will save 24¢ for each \$1 contributed to her church. The average tax rate is simply the total tax liability divided by taxable income. pp. I:1-5 and I:1-6.

Congress. Senate. Committee on Homeland Security and Governmental Affairs, 2017 The Resolution of International Tax Disputes David Rüll, 2024-06-10 The number of international tax disputes is constantly increasing This is a logical consequence of the pressure that is exerted on the global tax system by a rise in the number of internationally active and mobile taxpayers and tax competition between states on the one hand On the other hand the implementation of measures to tackle base erosion and profit shifting BEPS by multinational enterprises already gives rise to further disputes and another increase of disputes might arise from the latest reforms of the international tax system namely the Two Pillar Solution to address the tax challenges arising from the digitalisation of the economy Against this background the time is right for an institutionalised international tax dispute resolution mechanism that takes into account the interests of taxpayers states and the public and allows for a swift and binding resolution of international tax disputes

exactly what this timely and thoroughgoing book offers A comprehensive overview of existing international tax dispute resolution mechanisms and an analysis of their procedural rules advantages and disadvantages leads to a deeply informed proposal on how they can be further developed in a way that ensures greater fairness and equity for all stakeholders Among the lines of conflict that characterise international tax disputes the author sheds clear light on how improvements in the design of dispute resolution mechanisms may be found This includes these questions How should a dispute resolution mechanism be structured Should there be a mandatory resolution if the states cannot agree In which way should taxpayers participate in the procedure Should agreements and decisions be published Should there be an institution to administer the procedure The book concludes with a draft convention that would implement the author s suggestions Tax lawyers and other tax professionals worldwide as well as national tax authorities will benefit greatly from this book They will deepen their understanding of the variety of existing tax dispute resolution mechanisms and discover ways to strengthen them Academics will find ample room to reflect on the key design elements of such mechanisms and how to improve them
