Behavioral-Based Interventions for Improving Public Policies Mihaila, Viorel, 2020-11-13 Behavioral based intervention in designing public policies has become an important field of study in recent years with empirical studies devoted to analyzing how to design better policies from the fields of behavioral economics social psychology sociology anthropology economy political science design human centered design and design thinking or effective state and non state bureaucracies throughout the world Therefore it is important to explore this original research on behavioral policymaking that starts from the development of policies following all the way through to the implementation of them and the many stages in between Current research on public policy seeks to provide insights and support leadership in public administration within the framework of behavioral science Behavioral Based Interventions for Improving Public Policies aims to provide a glimpse of the theoretical frameworks in use and some of the latest practical reported research findings for behavioral based intervention in designing public policies The chapters will explore policymaking knowledge applied in different types of communities and cultural environments While highlighting topic areas that include policymaking policy infrastructure and policy adoption this book is ideally intended for professionals and researchers working in the fields of policymaking administrative sciences and management behavioral economics social psychology sociology anthropology economy or political science along with practitioners stakeholders academicians and students **National Union Catalog** ,1970 Includes entries for maps and atlases Forthcoming Books Rose Army, 1997-12 **Whitaker's Cumulative Book List** ,1986 **A Catalog of Books Represented by Library of Congress Printed Cards Issued to July 31, 1942** ,1942

The Cumulative Book Index ,1988 A world list of books in the English language Greenhouse Gas Inventories Thomas White, Matthias Jonas, Zbigniew Nahorski, Sten Nilsson, 2011-06-01 The assessment of greenhouse gases emitted to and removed from the atmosphere is high on the international political and scientific agendas Growing international concern and cooperation regarding the climate change problem have increased the need for policy oriented solutions to the issue of uncertainty in and related to inventories of greenhouse gas GHG emissions The approaches to addressing uncertainty discussed here reflect attempts to improve national inventories not only for their own sake but also from a wider systems analytical perspective a perspective that seeks to strengthen the usefulness of national inventories under a compliance and

or global monitoring and reporting framework These approaches demonstrate the benefits of including inventory uncertainty in policy analyses The authors of the contributed papers show that considering uncertainty helps avoid situations that can for example create a false sense of certainty or lead to invalid views of subsystems This may eventually prevent related errors from showing up in analyses However considering uncertainty does not come for free Proper treatment of uncertainty is costly and demanding because it forces us to make the step from simple to complex and only then to discuss potential simplifications Finally comprehensive treatment of uncertainty does not offer policymakers quick and easy solutions
