Read the following passage carefully and answer the questions that follow :

Writing is one of the most marvelous things ever invented by man. Indeed, our present civilization depends largely upon writing. But for it, the nations of the world would at this very moment know little about one another and would still be in state of ignorance and semi-savagery.

Who was the creator of this marvelous invention? Some cavemen most likely, a man in appearance more like an ape; yet a man who was filled with the desire to make some lasting record of the strange things he saw about him. This man was also the world's first artist, for the first writing was picture writing took the form of picture of the bears and stags and other animals which lived in the forest round the caveman's home. How we know this, you may ask. The answer is, in certain parts of the world, there are caves, on the walls of which such pictures may be seen drawn and painted thousands of years of ago. These ancient cavemen had minds like small children's just as the will draw pictures of houses and cows and men and women long before they learn to write.
