production After examining the range of such laws in selected important countries we turn to the application of the rules of the multilateral trading system to such export restrictions We discuss the major rules of the World Trade Organization WTO as well as the natural resources rules in selected regional preferential free trade agreements While there is not a comprehensive global legal regime on competition law we believe it is also important to examine how selected national competition laws impact export restrictions on natural resources This book will be a major contribution to the international dialogue on international economic law issues with respect to trade in natural resources and energy
