with an exposition on the Name of God Name glorifying a spiritual movement connected with the Orthodox practice of the Jesus Prayer was initially censured by the Holy Synod of the Russian Orthodox Church and the controversy raised profound questions that continue to vex ecclesiastical authorities and theologians today The controversy exposed a vital question concerning the ability of human language to express experiences of the Divine truthfully and authentically Bulgakov examines the idea that humans do not create words rather objects speak their word to human beings and words are the incarnation of thought in a sonic body conveying meaning Philosophy of the Name offers a philosophy of language for contemporary theologians of all confessions who wrestle with the issue of language and God It is a persuasive apologia for the mysterious power of words and an appeal to make use of words responsibly not only when speaking about God but equally when communicating with others

Embodied Relating and Transformation Hillary Sharpe, Tom Strong, 2015-10-30 What kinds of embodied and relational learning can come from developing a responsive relationship with a horse What insights might such ways of learning offer counselors and educators In this book the authors explore how women challenged by disordered eating develop transformative relational and embodied experiences through Equine Facilitated Counseling EFC Embodiment refers to how we engage with others and the world in often habitual and taken for granted ways that shape who we are and the relationships we have These habitual ways of being provide us with a sense of stability but they can sometimes become constraining and problematic as in the case of eating disorders Our corporeal engagement with the world structures such habits but it can also afford us opportunities to experiment modify and challenge problematic patterns and in some instances create new and preferred ones The horses that

participate in EFC present a vastly different sort of other who can help clients interrupt their sedimented ways of being and foster moments of responsivity that hold the power to become transformative This theoretical context presents a different way of thinking about and practicing counseling one that adds to a growing language of embodiment across a variety of disciplines Chapters set forth a theoretical context for understanding the following relationally embodied processes of stability and change EFC client stories from our research associated with riding horses in EFC and implications we see for practice across different healing and learning contexts Turn Here Sweet Corn Atina Diffley,2012 An organic farmer relates her family s experiences and struggles in the industry as they faced challenges ranging from inclement weather to the threat of eminent domain Olice Paolo Villoresi,1997 *Discover* ,1982 *The Christian Science Monitor Index* ,2002
