180 Days™: Reading for Kindergarten Suzanne Barchers, 2013-01-01 Help kindergarten students improve their reading skills with fun and effective daily practice activities 180 Days Reading for Kindergarten Introduces new words to practice foundational reading skills Boosts students confidence in reading with quick learning activities focusing on vocabulary and fluency skills Makes at home learning whole class instruction or small group support quick and easy Includes standards based activities easy to follow instructions and an answer key to quickly assess student understanding Parents appreciate the teacher approved activity books that keep their child engaged and learning Great for homeschooling to reinforce learning at school or prevent learning loss over summer Teachers rely on the daily practice workbooks to save them valuable time The ready to implement activities are perfect for daily morning review or homework The activities can also be used for intervention skill building to address learning gaps

Shaping Literate Minds Linda Dorn, Carla Soffos, 2023-10-10 How can teachers create a literacy curriculum that builds processing links between reading writing and spelling knowledge In *Shaping Literate Minds* Developing Self Regulated Learners Linda J Dorn and Carla Soffos illustrate how processing theory can be applied to the everyday practices of classroom teaching If instruction emphasizes the interrelationships of these three language areas students learn how to transfer knowledge skills and strategies across literacy events This is complex theory but the authors provide clear and practical examples to support teachers as they incorporate these ideas into their classroom practices Grounded in authentic experiences from primary classrooms this book provides Explanations of processing behaviors among reading writing and spelling knowledge Observational tools that support teachers in noticing changes over time in specific literacy behaviors Guidance on creating conditions for developing self regulated learners Authentic reading and writing samples and teacher student interactions Figures and pictures that clearly describe how teachers can use assessment to inform and guide instruction with links to national standards Details for establishing a school based literacy model that includes team meetings assessment walls high standards and a curriculum for literacy Appendixes with reproducible assessment checklists report cards task cards for literacy corners and guided reading observation forms for team meetings With a national emphasis on accountability high standards and literacy achievement *Shaping Literate Minds* will help teachers and administrators implement a high quality literacy curriculum that links to

national and state goals *Talking, Drawing, Writing* Martha Horn, Mary Giacobbe, 2023-10-10 In the early grades talking and drawing can provide children with a natural pathway to writing yet these components are often overlooked In *Talking Drawing Writing Lessons for Our Youngest Writers* authors Martha Horn and Mary Ellen Giacobbe invite readers to join them in classrooms where they listen watch and talk with children then use what they learn to create lessons designed to meet children where they are and lead them into the world of writing The authors make a case for a broader definition of writing advocating for formal storytelling sessions in which children tell about what they know and for focused sketching sessions so that budding writers learn how to observe more carefully The book's lessons are organized by topic and include oral storytelling drawing writing words assessment introducing booklets and moving writers forward Based on the authors work in urban kindergarten and first grade classes the essence and structure of many of the lessons lend themselves to adaptation through fifth grade The lessons follow a consistent format What's going on in the classroom What do children need to learn next Materials needed to teach the lesson Language used in each lesson Reasons behind why certain books are chosen and suggestions for additional children's books The authors show the thinking behind their teaching decisions and provide a way to look at and assess children's writing giving us much more than a book of lessons they present a vision of what beginning writing can look and sound like Perhaps most powerfully they give us examples of the language they use with children that reveal a genuine respect for and trust in children as learners *Student Diversity, 3rd Edition* Faye Brownlie, Catherine Feniak, Leyton Schnellert, 2016-10-14 From ice breaking activities to ways to meet specific expectations in all areas of the curriculum teachers will discover practical strategies and organizational frameworks that will help them to reach all students Whether you're searching for new ways to inspire students with different learning styles celebrate the abilities of the physically challenged or boost the skills of those learning English for the first time *Student Diversity* has what you need to meet and defeat the wide variety of challenges in today's classroom Packed with examples of student work and reproducible worksheets this book will help to smooth the daily path of beginning and experienced teachers alike *More Than Guided Reading* Cathy Mere, 2005 Is there too much emphasis on guided reading in primary classrooms It's a question that many educators like kindergarten teacher and literacy coach Cathy Mere are starting to ask Guided reading provides opportunities to teach students the strategies they need to learn how to read increasingly challenging texts but Cathy found that she needed to find other ways to help students gain independence While maintaining guided reading as an important piece of their reading program teachers need to offer students opportunities during the day to develop as readers to learn to choose books to find favorite genres and authors and to talk about their reading In *More Than Guided Reading* Cathy shares her journey as she moved from focusing on guided reading as the center of her reading program to placing children at the heart of literacy learning not only providing more time for students to discover their reading lives but also shaping instruction to meet the needs of the diverse learners in her classroom By changing the structure of the day Cathy found she was better able

to adjust the support she was providing students allowing time for whole class focus lessons conferences and opportunities to share ideas as well as reading from self selected texts using the strategies skills and understandings acquired in reader s workshop The focus lesson is the centerpiece of the workshop It is often tied to a read aloud and connected to learning from the previous day helping to build skills extend thinking and develop independence over time This thoroughly practical text offers numerous sample lessons questions for conferences and ideas for revamping guided reading groups It will help teachers tweak the mix of instructional components in their reading workshops and provoke school wide conversations about the place of guided reading in a complete literacy curriculum Making the Most of Small Groups Debbie Diller,2023-10-10 Author Debbie Diller turns her attention to small reading groups and the teacher s role in small group instruction Making the Most of Small Groups Differentiation for All grapples with difficult questions regarding small group instruction in elementary classrooms such as How do I find the time How can I be more organized How do I form groups How can I differentiate to meet the needs of all of my students Structured around the five essential reading elements comprehension fluency phonemic awareness phonics and vocabulary the book provides practical tips sample lessons lesson plans and templates suggestions for related literacy work stations and connections to whole group instruction In addition to ideas to use immediately in the classroom Diller provides an overview of relevant research and reflection questions for professional conversations
