

How to Write a Critique

- A critique is a short paper, usually about one book or article.
- First, it gives a short summary of what the author has said.
- Second, it looks at the work critically. You will need to assess the strengths and weaknesses of the piece of research or writing.
- It is important to remember that criticism can be positive as well as negative.

Why write a critique?

- A critique is an exercise in judging the value of a piece of writing or research.
- It is also a way of improving your own skills by looking at the way other writers and researchers work.
- It is a valuable exercise in the careful reading of text that will increase your understanding of a particular subject.

Getting Ready to Write a Critique

- Read the whole book or article thoroughly – highlight text that you think important or make notes as you go along.
- Think carefully about what you have read and ask yourself questions about the material.
- You should try and establish:
 - The main points that the author is trying to make
 - How does the author back those points up? In other words: what evidence is provided.
- ➦ Re-read the material to make sure that you have understood the author's ideas.
