Reading, Learning, Teaching Toni Morrison Karen F. Stein, 2009 Reading Learning Teaching Toni Morrison draws on contemporary scholarship and Morrison s own commentary to explicate all of her novels published to date including her 2008 novel A Mercy Morrison the 1993 Nobel Prize winner is an unabashedly confrontational author Her profound and complex novels address problems such as slavery violence poverty and sexual abuse Morrison s work encompasses a project of total cultural renewal she re imagines and reaffirms the experience of African Americans from the earliest days of slavery up to the present avoiding stereotypes or oversimplification She employs African and Western literary traditions and conventions as a basis for both structure and critique re writing some of the master narratives of American culture and history This book analyzes Morrison s novels in the context of African American history and literature and provides supplemental material to guide teachers and students to understand and appreciate Morrison s novels *How to Analyze the Works of Toni Morrison* Maurene J. Hinds, 2012-09-01 This title explores the creative works of famous author Toni Morrison Works analyzed include The Bluest Eye Beloved Sula and Paradise Clear comprehensive text gives background biographical information of Morrison The You Critique It feature invites readers to analyze other creative works on their own A table of contents timeline list of works resources source notes glossary and an index are also included Aligned to Common Core Standards and correlated to state standards Essential Library is an imprint of Abdo Publishing a division of ABDO Stephen King's Contemporary Classics Philip L. Simpson, Patrick McAleer, 2014-11-13 Many readers know Stephen King for his early works of horror from his fiction debut Carrie to his blockbuster novels The Shining The Stand and Misery among others While he continues to be a

best selling author King's more recent fiction has not received the kind of critical attention that his books from the 1970s and 1980s enjoyed. Recent novels like *Duma Key* and *11/22/63* have been marginalized and arguably cast aside as anomalies within the author's extensive canon. In *Stephen King's Contemporary Classics: Reflections on the Modern Master of Horror*, Philip L. Simpson and Patrick McAleer present a collection of essays that analyze, assess, and critique King's post 1995 compositions. Purposefully side-stepping studies of earlier work, these essays are arranged into three main parts: the first section examines five King novels published between 2009 and 2013, offering genuinely fresh scholarship on King; the second part looks at the development of King's distinct brand of horror; the third section departs from probing the content of King's writing and instead focuses on King's process. By concentrating on King's most recent writings, this collection offers provocative insights into the author's work, featuring essays on *Dr. Sleep*, *Duma Key*, *The Girl Who Loved Tom Gordon*, *Joyland*, *Under the Dome*, and others. As such, *Stephen King's Contemporary Classics* will appeal to general fans of the author's work as well as scholars of Stephen King and modern literature.

Creative Learning in Higher Education Linda S. Watts, Patrick Blessinger, 2016-07-22 This book provides higher education faculty and administrators a scholarly resource on the most salient aspects and emerging trends in creative learning in higher education today. International contributors explore ways to foster creativity in any student, regardless of academic discipline or demographic characteristics, and demonstrate that creativity is a skill all students can and should learn. Chapters analyze how different countries and cultures implement creative learning, exploring issues of instruction, assessment, and ultimately how these practices are transforming learning. This important book helps higher education professionals understand and cultivate creative learning across disciplines in any college and university setting.

Climate Consciousness and Environmental Activism in Composition Joseph R. Lease, 2020-02-18 Now more than ever, in a time when Americans still do not believe that humans are the primary cause of Earth's climate change crisis, the burden on educators to inform, challenge, and motivate students about sustainability is greater than it ever has been. On college campuses, writing-intensive courses, often located within First Year or General Education curricula, are an ideal place to take up this charge because of the flexibility of their content and the high volume of students that they reach. In this volume, a varied group of composition instructors with wide ranges and types of experiences provides best practices for bringing issues surrounding climate change into the writing classroom. From literature-based composition and creative writing courses to design thinking workshops to seminars against sustainability, the authors in this volume lay out a multitude of possibilities for blending writing and environmental concerns that fellow practitioners can easily adopt or modify for their own use.

The Critic as Amateur Saikat Majumdar, Aarthi Vadde, 2019-09-19 Can the criticism of literature and culture ever be completely professionalized? Does criticism retain an amateur impulse even after it evolves into a highly specialized discipline enshrined in the university? *The Critic as Amateur* brings leading and emerging scholars together to explore the role of amateurism in literary studies. While untrained reading has always been central to

arenas beyond the academy book clubs libraries used bookstores its role in the making of professional criticism is often disavowed or dismissed This volume the first on the critic as amateur restores the links between expertise autodidactic learning and hobbyist pleasure by weaving literary criticism in and out of the university Our contributors take criticism to the airwaves through the culture of early cinema the small press the undergraduate classroom and extracurricular writing groups Canonical critics are considered alongside feminist publishers and queer intellectuals The Critic as Amateur is a vital book for readers invested in the disciplinary history of literary studies and the public role of the humanities It is also a crucial resource for anyone interested in how literary criticism becomes a richly diverse yet shared discourse in the 20th and 21st centuries
