

Writing SMART Objectives

Goals vs. Objectives

Good plans have goals and objectives. Setting goals and objectives correctly will help your plan to be successful. However, understanding the differences between a goal and an objective can be confusing.

Goals:

Goals are broad, brief statements of intent that provide focus or vision for planning. Goals are warm and fuzzy. They are non-specific, non-measurable, and usually cannot be attained. Below is an example of a program goal.

The goal of this project is for the WIC participants to look forward to their WIC visit and to feel like the time they spend at WIC is worthwhile.

Objectives:

Objectives are like the stepping stones towards the achievement of our goals. They are meant to be realistic targets for the program or project. Objectives are written in an active tense and use strong verbs like plan, write, conduct, produce, etc. rather than learn, understand, feel. Objectives can help you focus your program on what matters. They will always answer the following question:

WHO is going to do WHAT, WHEN, WHY (what does it demonstrate), and TO WHAT STANDARD?

Some examples of objectives are below.

- *By October 31, 2010 the APL will observe, analyze and report the average amount of time clients currently wait for WIC services.*
- *By November 15, 2010 the WIC staff will survey clients to determine the acceptable time for their WIC appointment and suggested activities to make wait time more acceptable.*
- *By December 31, 2010, the APL will train at least 15 WIC staff members on the WIC Platinum Principles.*
- *By December 31, 2010, the WIC staff members will vote to select three things they will do to reduce participant waiting time.*
- *By February 1, 2011 at least one activity for children and one activity for adults will be available in the WIC waiting area.*
- *By April 1, 2011, there will be a 25% decrease in the average participant wait time in clinic.*
