When Teacher Voices Are Heard Elizabeth Birnam, Debora Nary, 2013-04-09 Moving towards the Common Core Standards in reading and writing the time is right for school districts to reform literacy instruction by focusing their instruction around the needs of their diverse student population and the teaching styles of their teachers There is no better way to do this than through a teacher created home grown literacy program that aligns standards with student needs all while remaining cognizant of the teachers who implement the curriculum In the process teachers emerge as literacy leaders The leadership paradigm shifts away from the principal as sole decision maker and through a shared vision and collective efficacy classroom teachers and administration form an alliance that ensures success for all students Because it is the shared responsibility to adapt the program to the learner the hallmark of this instructional reform is relevant job embedded professional development that is provided in a timely fashion This fosters a democratic learning community where decisions are made together and the status quo is challenged Reading/writing Connections in the K-2 Classroom Leah Mermelstein, 2006 Reading Writing Connections in the K 2 Classroom demonstrates how through careful explicit assessing planning and teaching every student can understand the relationship between reading and writing The text is filled with practical classroom strategies based on both theory and research Focused on the goal of understanding the relationship between reading and writing the text demonstrates how to move students between the two to become more skillful readers and writers In three parts the text explores the essential understandings needed to use the reading writing connection demonstrates how planning helps to use the reading writing connection and outlines teaching strategies to use the connection to strengthen your everyday encounters with students Assessment is integrated into each chapter providing a clear image of what it looks like to assess in the service of student learning Practical ways to integrate phonemic awareness phonics word study and spelling into planning and teaching reading and writing are incorporated throughout Word study is integrated into every chapter to ensure a systematic approach to the topic *Modern Curriculum for Gifted and Advanced Academic Students* Todd A. Kettler, 2021-09-03 Modern Curriculum for Gifted and Advanced Academic Students addresses the need for advanced curriculum design in an age of national standards and 21st century learning innovations The text and its authors work from the assumption that the most advanced learners need a qualitatively different design of learning experiences in order to develop their potential into outstanding achievement answering the question How should we design learning experiences for our most advanced academic students in the foundational curriculum areas This book provides the most contemporary thinking about how to design in depth courses of study in the foundational curriculum areas with a high degree of complexity and advanced content The book includes chapters articulating specific design components like creative thinking critical thinking and authentic research but also subject specific chapters in mathematics language arts science and social studies to demonstrate application of those design components *Of Primary Importance* Ann M.
