disregard for wealth and desire for glory They have come to life with divine power to redress wrongs fight for righteousness remove oppressors and bring retribution for past misdeeds *Stateless Subjects* Petrus Liu,2012-01-31 Known in the West primarily through poorly subtitled films Chinese martial arts fiction is one of the most iconic and yet the most understudied form of modern sinophone creativity Current scholarship on the subject is characterized by three central assumptions against which this book argues first that martial arts fiction is the representation of a bodily spectacle that historically originated in Hong Kong cinema second that the genre came into being as an escapist fantasy that provided psychological comfort to people during the height of imperialism and third that martial arts fiction reflects a patriotic attitude that celebrates the greatness of Chinese culture which in turn is variously described as the China complex colonial modernity essentialized identity diasporic consciousness anxieties about globalization or other psychological and ideological difficulties experienced by the Chinese people Hidden in Plain Sight Ellis Amdur,2018-08-09 Ellis Amdur's writing on martial arts has been groundbreaking In *Dueling with O sensei* he challenged practitioners that the moral dimension of martial arts is expressed in acts of integrity not spiritual platitudes and the deification of fantasized warrior sages In *Old School* he applied both academic rigor and keen observation towards some of the classical martial arts of Japan leavening his writing with vivid descriptions of many of the actual practitioners of these wonderful traditions His first edition of *Hidden in Plain Sight* was a discussion of esoteric training methods once common but now all but lost within Japanese martial arts These methodologies encompassed mental imagery breath work and a variety of physical techniques offering the potential to develop skills and power sometimes viewed as nearly superhuman Usually believed to be the provenance of Chinese martial arts Amdur asserted that elements of such training still remain within a few martial traditions literally hidden in plain sight Two thirds larger this second edition is so much more Amdur digs deep into the past showing the complexity of human strength its adaptation to varying lifestyles and the nature of physical culture pursued for martial ends Amdur goes into detail concerning varieties of esoteric power training within martial arts culminating in a specific methodology known as six connections or internal strength With this discussion as a baseline he then discusses the transfer of esoteric power training from China to various Japanese jAAjutsu systems as well as Japanese swordsman ship emanating from the Kurama traditions Finally he delves into the innovative martial tradition of DaitAAryAA and its most important offshoot aikidAA showing how the mercurial complicated figures of Takeda Sokaku and Morihei Ueshiba were less the embodiment of something new than a re imagining of their past
