Orchestrating Power Nathan K. Finney, 2025-12-15 *Orchestrating Power* explores how the expansion of the American state for the First World War reshaped the nature of governance This wartime state expansion is examined through the creation structure activities and impact of the Council of Defense system on the ability of the United States to mobilize for a significant conflict in a foreign land Nathan K Finney focuses on North Carolina s Council of Defense to describe how the council was mediated by specific people at various levels of society and the results of their decisions The result is a compelling story about how individuals drove dynamic and compelling regional and national events that propelled a massive national wartime mobilization Positioned between the national government and the people of North Carolina the Council of Defense mediated the activities of public private and individual efforts in support of mobilization activities Because of this intermediary positioning the council was instrumental in expanding state capacity and capability for military and resource mobilization and supporting an increase in the nation s ability to mobilize for the war The council s intermediary role however also allowed those managing the state mobilization to prevent any significant challenge to the state s social and political structures despite the dynamic changes wrought by the need to mobilize the nation for war As a result *Orchestrating Power* helps us understand the crucial decisions and developments of early twentieth century America showing why the country mobilized for war in the specific ways that it did

War Propaganda Amelia Khatri, AI, 2025-02-17 *War Propaganda* explores how nations mobilized public support during the World Wars examining the techniques used to shape opinions and encourage participation The book delves into emotionally charged imagery the demonization of enemies and the selective dissemination of information revealing how these methods influenced soldiers civilians and political leaders alike Understanding war propaganda is essential because it showcases the power of persuasion and manipulation in large scale conflicts The book analyzes specific propaganda techniques across different nations highlighting both common strategies and contextual variations By drawing from government documents posters films and personal accounts it investigates propaganda s impact on morale recruitment and public support This approach challenges conventional understandings of war by asserting that manipulating public consciousness was as crucial as military strategies The book progresses logically starting with a definition of propaganda and its historical roots then moves to analyze specific techniques and their effects By combining historical analysis media studies and social psychology *War Propaganda* offers a nuanced perspective on this complex subject This book s exploration of historical events provides readers with a framework for understanding contemporary political communication and media manipulation

Our exhibition catalogue reflects our exhibition's focus on our local and other Long Island communities' response to World War I's homefront. We will show how we lived, changed our lifestyles, both shaped and were shaped by the war effort, and examine how both individual and societal change was effected. We also examine the concepts of both history repeating itself and how we as individuals can effect societal change. A number of the topics are relevant in this discussion including the rights of women and African Americans, the pandemic, and politics and propaganda. As is often the case, our country was sharply divided in its views about participating in the war from its onset. We will be reviewing the reasons Americans were in favor of entering the war, how civilians transformed into soldiers, how the farmerettes grew food for both our citizens and the soldiers, the efforts made by various groups to assist, i.e., the Boy Scouts, what we did in our spare time, and how our cultural activities were influenced. How both the women and the men served the army, of animals that we harnessed, and the fight the suffragists continued as they assisted in the war effort.
